Letter To The Editor

Stand Congratulated

EDITOR:
My husband and I were greatly heartened by the Naturalist Club's stance on the parkland development. As new residents in Farmington, we are concerned that the natural attributes we sought when moving be preserved.
At this critical stage of development, we feel it is imperative to establish life style priorities and design a civic plan to attain them. It would be tragic to allow Farmington to expand wantonly in a Warren, heedless of the superb possibilities for natural development, nature trails, civic parks, just plain woods for romping.
We feel now is the opportune time to situate these areas for good neighborhood access. How difficult is it to be able to walk and enjoy both community and nature.
A small step backward and a monumental step forward: working with the perspective of past and the foresight of tomorrow to create a liveable community - man in nature and society.
