Devoted to the upbuilding of Farmington and Oakland County

A true politician is a man who loveth all his neighbors—just before election.

It's a good, safe bet that there will be room for a lot of new banks when National Prohibition goes into effect.

A very few instances have been heard of where editors owned automobiles. Upon tracing their history, however, we find that most of them sold postage stamps.

A fellow down in Oklahoma owns a fly that he has taught to alight upon his brow at the hour of five each morning. Michigan flies are way ahead of that—just about an hour and no training either.

Give us an editor with wit enough to run a few pithy editorials each week. For that reason we salute our brothers of the Holly Herald, Farmington Enterprise and Rochester Clarion.—Oxford Leader.

There is such a thing as carrying a joke too far. An Oakland county editor recently had a line in his paper which read: "Swat the fly." And another one comes back with a meek little query: "which one?" No doubt about it, killing would be far too good.

According to Press despatches, there will be a candidate for President in 1916 by name of Smith. It's a good safe bet that if all the Smiths rally to his support he'll be elected. Wouldn't mind running, myself, with a consolidated Smith ticket. Could even get along without the Smythes.

A fellow over at Utena got sore the other day, according to a newspaper report, and had some smart young fellow arrested because he kyked his wife. What does it mean?—Oh look it up yourself, or call the postoffice. If they don't know call the Query department, phone 25, Farmington, Mich.—We're too darned busy.

By the way, did you know that since the installation of the water works there has never been a published report made? Do you know how much it cost to install it? Do you know how much it costs to run it? Are you sure that the original \$15,000 is all that it cost. Of course everything is all O. K. Yet, wouldn't you like to know?

Arthur M. Young of Pontiac was a Farmington visitor Monday, and the writer had the pleasure of meeting him. Mr. Young is a staunch Republican, and has just announced his candidacy for the office of County Treasurer. I regret that my acquaintance with him did not start at an earlier date, that I might tell my readers more about him. His record, however, is clear, and he has made and retained a host of friends throughout the county. A personality such as his inspires confidence, and I cannot but feel that the county finances would be in able hands if entrusted to him. You have an opportunity to give him your support at the primaries, August 25th.

My hat goes off to old Noah Webster, again. It's been off time and again previously, but this time it's off to stay. He sure was a far-sighted old geezer. Knew everything that was going on at the time that he wrote that old standby, the dictionary, and besides knew what was going to take place later. I always had an idea that the word chicken was no more or no less than a two legged bird covered with feathers—in fact never dreamed that the word could apply truthfully to anything else—was as used

by some in speaking of girls of young and tender years, nothing but a slang expression. I was wrong. Noah evidently knew that some day the simple word "girl" would not be sufficient, so when he got into the "chi" class, here's what he wrote: "Chicken—a young person; used as a term of endearment."

# Booster's Barbecue Wednesday, July 22nd, AT PONTIAC

THE PEOPLE OF OAKLAND COUNTY are invited to Pontiac on Pontiac Day, July 22nd. Mayor Johnson has proclaimed a holiday for the occasion, the stores and factories will close, there will be a parade of civic and industrial floats, a band concert during the entire afternoon, a barbecue at which a roast ox and other good things will be served besides many other features. And Everything is FREE.

THE CITIZENS OF PONTIAC have constituted themselves a committee to sell 400 lots in the Pontiac Industrial Addition on that day. The addition lies along the Michigan Air Line railroad in the southeastern section of the city, the land on three sides of it is occupied by homes and it is within a few blocks of two modern school buildings. The lots are priced at a figure which makes them a splendid investment.

THE MONEY RECEIVED over and above the cost of these lots will go into an industrial fund to bring factories to the city. For six years this fund must be used to locate manufacturers on the factory sites which adjoin the addition. The placing of one factory there will raise the value of these lots materially. But the effort will not end there. Industries will be brought to Pontiac until no cities are left.

PONTIAC TODAY STANDS as one of the most progressive cities in Michigan. Its location, just at the threshold of Detroit and the wonderful market that metropolis affords, is causing it to be favorably considered by manufacturers who are thinking of a change in location. Two industries have moved there from other states within the past month. Pontiac is growing every day. Why not invest your money there to grow with it?

TO CAP THE DAY one of the most valuable lots in the addition will be given away absolutely free.
