

Famous Kilties' Band Will Play For State Fair.

THE Kilties' Band, one of the most famous musical organizations that ever have toured the United States, has been secured by the management of the Michigan State Fair at Detroit Sept. 7-18 to furnish music throughout the entire two weeks of the exhibition. Efforts have been made for several years to secure the Kilties, but only this season was the attempt successful.

POULTRY SHOW GREATEST EVER

Fair Gives Impetus to Industry
In State.

PREMIUMS ARE INCREASED.

Special Award Will Be Made to County Organization Which Shows Largest Array of Prize Winners at the Fair.

Special plans are being made for the poultry exhibit at the Michigan State Fair, Sept. 7-18. The Fair is not only a source of information to this industry, and the coming exhibition will excel in its scope and attractiveness any thing the organization so far has done. A contract recently was closed by George W. Dickinson, general manager of the Fair, for uniform cooping, in which the birds will be housed. This cooping is of wire, so as to permit complete examination of the birds by the poultry. It is perfectly sanitary, and by being uniform no one entry has an advantage over another.

In addition to the premiums given for the various classes, the Fair management has announced that a special premium of \$50 will be awarded the county organization which shows the greatest number of winning birds at the Fair.

Keeps Its Fascination.
Frank Coward of Bronson is the board member in charge of the poultry department. Daniel Thomas of Pontiac is superintendent and J. W. Main of Toledo had Earl Hemenway of South Haven the judges.

"The fascination of poultry raising for both city and country dweller has not lost any of its force," says Dr. Dickinson. "In fact, we are looking at it as a matter of necessity. The city man finds that a flock of chickens helps him cut the cost of living, and the price eggs and fowls are bringing makes poultry raising pretty profitable for the farmer. The State Fair means to help in every way possible, and its exhibit this year has never been equalled in Michigan."

ADDS TWO NEW DEPARTMENTS

China and Fine Arts Exhibition Shown
In Main Building.

In response to a demand which has been growing steadily for the past few years, the Michigan State Agricultural society has added materially to the scope of its needwork department for the sixty-fifth annual Fair, which will be held at Detroit Sept. 7-18. The department heretofore will be known as the needwork, china and fine arts exhibition and will be housed, as before, in the Michigan building. China painting has come to be an occupation in many Michigan homes, and hundreds of women are busying themselves in their spare moments with brush and palette.

Your classes in the department have been devoted to these subjects, as follows: China painting, amateur; china painting, professional; paintings; original productions, water and oil; paintings, student class; oil paintings and water colors. The premiums cover almost every specimen of china that is painted, including the conventional and naturalistic, and are so liberal that the display will be attractive. In the fine arts section exceptional premiums have been listed for portraits, landscapes, easel subjects, studies in still life, animal subjects and marine studies.

"These small arts beauty and make happy the home, and the State Fair plans to give them unstinted encouragement."

"BETTER BABIES!" FAIR'S SLOGAN

Michigan's Great Exhibition
Supplements Nation's Effort.

NOTED WOMAN AT THE HEAD

Instruction Given to Mothers In Care of Children—Child Welfare Exhibit to Be on Display—Babies From All Over Michigan in Health Contest.

If the men and women of the Michigan of tomorrow are to be the healthy, normal persons that make the best of citizens they must be happy, healthy and normal babies, and they must have the best of care and training through the perilous days of childhood. The management of the State Fair believes that while thousands of dollars have been spent and well too in instruction to enable farmers to

MRS. GEORGE G. CARON.

improve their flocks and herds, far less attention has been given the babies than is their due.

It has been only within the past two years that the United States government has realized the necessity of such instruction and has sought to provide it. The federal children's bureau has been established and is doing splendid work. The fair management has decided to supplement this, each year with an effort of its own, and a better babies' department has been added to its activities. This fall, at the fair, will be held Sept. 7-18, instruction will be given to mothers in the care and training of their children, and a child welfare exhibit will be on display. In addition babies will be entered in a health contest, children from one to three years being eligible. Mrs. George G. Caron, president of the Detroit board of the Michigan Children's Home society and a recognized

was a triumph. It has played in all the large cities in this country and has been called for more return engagements than almost any other organization of its kind. It will appear at the grounds every day and will give concerts mornings and afternoons, besides playing for the horse show and the fireworks in the evening.

TEN STAKE RACES AT STATE FAIR

Purses Reach \$60,000; Early
Closing Events Filled.

PROGRAM TWO WEEKS LONG.

Best Stables In Country Are Being Attracted—Speeders From Over the Border Will Face Wire—Finest Racing Events in Fair's History.

A speed program, the like of which has never been seen at a Michigan State Fair, has been arranged by the Michigan State Agricultural society for its sixty-fifth annual exhibition at Detroit, Sept. 7-18. Two solid weeks of racing have been carded, with the purses so liberal that large fields are insured for all. No less than ten stake events have been arranged with purses ranging from \$5,000 to \$15,000. The entries for these have all been closed, and the class of horses that will face the wire portends that turf history will be made. The stakes are scattered through the two weeks, one coming each day.

Notable among the stakes are the Michigan, for 212 trotters; the Alton, for 214 trotters, and the Postal, for 211 pacers, purses of \$5,000 being hung up for each of these. The first named will be contested the first week, and the others the second. Another stake in the first week's list which has attracted attention is the 217 trot, the entrants being limited to those horses owned in Michigan April 1 of the present year. The other stake events are as follows: Detroit stake, 2:08 class, trotting, purse of \$3,000; Windsor stake, 2:11 class, pacing, \$3,000; Wayne stake, free for all pace, \$3,000; Field stake, 2:08 class, trotting, \$2,500; Newton stake, \$2,500; Dickinson stake, 2:10, trot, \$1,500.

Many Class Races.
In addition to the early closing events the following class races with uniform purses of \$1,000 will be run each week: 2:23 pace, 2:18 pace, 2:15 pace, 2:13 pace, 2:08 pace, 2:07 pace, 2:05 pace, 2:24 trot, 2:20 trot, 2:14 trot, 2:10 trot, free for all trot and Conner's handicap.

A race program is as indispensable to a fair as a merry-go-round, and the management plans this season to present to the lovers of this sport in Michigan the best that is obtainable. The value of the purses is such that the best horses in the country are being attracted here, and that is a guarantee of the competition that will result. All the stables known up and down the big line will be represented, and there will be many speeders from over the border.

Fred Postal, Eugene Fifield and G. W. Dickinson are the members of the State Fair's board of directors who comprise the speed committee.

Break Ground For Hospital.
Ground has been broken for the Clara Barton hospital building, which will stand just north of the automobile building and to the west of the dairy building. The structure, two stories in height, and in the comfortable colonial style is being erected under the direction of Dr. E. B. Smith, brigadier general of the Michigan division of the National First Aid society. The building will contain four, ten beds and an operating room, and will be equipped as completely as a modern hospital. A staff of physicians and nurses will be in constant attendance during the two weeks of the fair.

Big Day At County Seat

A civic holiday, a barbecue and a host of good things to eat, a parade, representative of the city's progress, a band concert, a lot given away and many other attractions are to feature the celebration of Pontiac Day, July 22nd, at the county seat. The stores and factories in Pontiac will close for the afternoon so every person may take part in the festivities and a hearty invitation is extended to the people of the county to lend their presence to the occasion.

A subdivision which is known as the Pontiac Industrial Addition and which contains 400 lots, has been turned over to the city and will be disposed of on that day. It lies within the limits and is one of the most valuable pieces of vacant property in Pontiac. The proceeds of the sale will make up a fund which will be used to secure industries for Pontiac. All factories obtained within six years are to be located upon the factory sites which adjoin the Addition and which, consequently, will make the property more valuable.

Many cities have employed funds to secure industrial, funds but this will be the first time a municipality has ever one out to earn the money it needed.

Council Proceedings

July 6, 1914.
Meeting called to order by the president, Geo. Francis. Roll call showed the following trustees present: Nichols, Walters, Myers and Pauline.

Minutes of meeting held June 1, 8th and 22nd read and approved.

Chairman of street committee reported that road on east Grand River Ave. had not been repaired, but some of the material was on the ground.

The committee appointed to see about purchasing a bell tower reported they had not bought anything as yet.

The ordinance committee presented an ordinance drafted and called a curfew ordinance, and on being read same was accepted and a copy of same can be read in another column of this issue.

W. L. Dillon was present and presented his bond of \$500.00 to make good his agreement in changing of pumps and on vote same was accepted.

Motion was made and carried that the sidewalk in front of the cemetery be extended to meet the crosswalk from Mr. Pickett's.

Mr. Thompson of Northville, a gentleman interested in giving moving picture shows, was present and asked for a cancellation of license or at least a reduction of same, as he wished to give at least one show a week, and on vote the license was cancelled for this individual case.

Bills were allowed and ordered paid as follows:

Sam Turner	\$6.25
Jos. Voight	\$18.75
Henry Pauline	71.05
John H. Thayer	27.00
A. D. Peterson	8.50
A. D. Peterson	15.00
J. A. Price	4.00
Standard Oil Co.	240.32
Am. Well Works	180.39
Pitts Meter Co.	113.70
F. H. Nichols	2.00
Frank Walters	2.00
C. M. Doherty	6.83
F. Densmore	29.00
H. Oldenberg	25.50
W. I. Ely	8.24

The foot men have a lot of faults. But bless their hearts, they don't kiss each other when they meet on the street.—Cincinnati Enquirer.

Beware of Ointments for Catarrh That Contain Mercury
Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should be used only on prescription and never be used except on prescriptions from reputable physicians as the damage from reputable medicine is less than the damage from cheap imitations. Catarrh can be cured by using Catarrh Cure, a blood and mucous purifier, and taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.
Sold by Druggists. Price 50c per bottle. Take Hall's Family Pills for constipation.

Acetylene Gives Double Value

Acetylene not only supplies good light for the farm home, but cooking fuel as well—the hundred and one "systems" that Acetylene has crowded out, all furnish light only. Acetylene gives the Country home owner double value for his money. As a result, Pilot Lighting systems now outsell all others. We are today the largest manufacturers of light plants in the world. We have a big Eastern factory in Newark, N. J., and a big Western factory in Chicago. Pilot Acetylene Generators are important and necessary features of modern Country Home equipment—just as necessary and quite as permanent as a bath room or a heating plant.

You simply feed your Pilot the gas producing stone Union Carbide, about once a month—the Pilot does the rest. Automatically it makes gas just as you use it—just enough to supply you with brilliant white light in your home and barns—cooking fuel for your kitchen range. Pilot plants have brought the greatest of City conveniences to the Country. Write for names of satisfied users in your district. Just address—
