John Teagan, who has been a sufferer from anemia for many years, died at Harper Hospital in Detroit last week, and the remains were brought to Bell Branch for burial. Mr. Teagan formerly lived a few miles south of the village, but had been making his home for some time with his brother, Robert Teagan, in Detroit.

The children's reading circle which was formed by Miss Hazel Steele about two weeks ago, and which meets at the water works hall every Saturday afternoon, has already become quite popular, and between 30 and 40 children have been in attendance at each meeting. The "Bird's Christmas Carol" is being read at present. After the reading the children enjoy various indoor games.

See Cook & Co. for furniture.

John H. Johnson, who for years has owned and operated Stony Brook Farm, west of the village, and who is well known in the Pure Bred Cattle world, has decided to enter the retail milk field, and on Wednesday morning commenced delivering milk to a big new list of milk customers. Mr. Johnson makes a practice of having his cattle inspected for disease, and thus patrons are insured of pure, wholesome milk. He has purchased quite an amount of new material, including new pint and quart bottles, and we are sure has entered what will prove a growing field.

## How Much Service Can You Get From Your Typewriter?

It's what a machine *does*, not what it *costs*, that is most important. All typewriters *do not* have the same efficiency and the same operator *does not* get the same result on every writing machine.

**The L. C. SMITH & BROS. Typewriter** will produce ten to twenty per cent. more work than any other typewriter ever made.

How is this possible? Here are a few reasons:

1. It is ball-bearing throughout—others are not.
2. All operations are controlled from the keyboard.
3. It is the lightest touch machine made.
4. It does not "smut" the carbon.
5. The ribbon reverses automatically.
6. The type is so protected that it is not battered by collision.
7. One motion of the hand returns the carriage and operates the line space.
8. It has an inbuilt biller and tabulator.
9. No trouble to write on paper as small as a post-age stamp.
10. It is built for service.

Send for illustrated catalog.
