RAILROADS APPEAL TO PRESIDENT

The Common Carriers Ask for Relief—President Wilson Directs Attention of Public to Their Needs.

The committee of railroad executives, headed by Mr. Frank Trumbull, representing thirty-five of the leading railroad systems of the nation, recently presented to President Wilson a memorandum briefly reviewing the difficulties now confronting the railroads of the country and asking for co-operation of the governmental authorities and the public in supporting railroad credits and recognizing an emergency which requires that the railroads be given additional revenues.

The memorandum recites that the European war has resulted in general depression of business on the American continent and in the dislocation of credits at home and abroad. With revenues decreasing and interest rates increasing the transportation systems of the country face a most serious crisis and the memorandum is a strong presentation of the conditions burning at both ends and the perils that must ultimately attend such a conflagration when the flames meet is apparent to all. In their general discussion the railroad representatives say in part: "By reason of legislation and regulation by the federal government and the forty-eight states acting independently of each other, as well as through the action of a strong public opinion, railroad expenses in recent years have vastly increased. No criticism is here made of the general theory of governmental regulation, but on the other hand, no indignity can relieve the carriers of expenses created thereby."

President Wilson, in transmitting the memorandum of the railroad presidents to the public, characterizes it as "a lucid statement of plain truth." The president recognizing the emergency as extraordinary, continuing, said in part: "You ask me to call the attention of the country to the imperative need that railway credits be sustained and the railroads helped in every possible way, whether by private co-operative effort or by the action, wherever feasible of governmental agencies, and I am glad to do so because I think the need very real."

The conference was certainly a fortunate one for the nation and the president is to be congratulated for opening the gate to a new world of effort in which everyone may co-operate.

There are many important problems in our complex civilization that will yield to co-operation which will not tend themselves to arbitrary rulings of commissions and financing railroads is one of them. The man with the money is a factor that cannot be eliminated from any business transaction and the public is an interested party that should always be consulted and happily the president has invited all to participate in the solution of our railroad problems.

SAN-JAK

is the greatest rectifier for the blood and skin yet known. Greasy skin with pimples, blotches, eruptions or scrofula easily cleared away. Its use leaves the blood and skin as pure as the lilies. SAN-JAK for the stomach, nerves and blood is the best the world ever saw. SAN-JAK prevents the excessive flow of poison fluid into the blood from the super renal glands near the kidneys, causing the arteries to harden in years past 50. This preventive keeps the arteries soft and flexible, giving flexibility to the muscles as in youth.

You can feel well and active at any age from 60 to 90 years. Man should die of old age, not from disease or diseased tissue. Mothers and daughters can avoid many dangerous operations by the use of this wonderful medicine. \$1.00 per bottle. Get SAN-JAK of
