

MIGHTIEST SEA FIGHTER OF THE BRITISH NAVY BOMBARDING DARDANELLES FORTS

The Queen Elizabeth of the British navy, the most powerful battleship in the world now in service, has shown the remarkable value of its long range 15-inch guns, which enabled the ship to keep out of the range of the Turkish guns and at the same time shell the defenses. The Queen Elizabeth has a displacement of 27,500 tons and her main armament consists of eight 15-inch guns and sixteen 6-inch guns. Her speed is twenty-five knots and she has the largest range of any ship known.

EASY TO SEE THE PANAMA EXPOSITION

Modern Cooperation Cuts the Expense Very Low—A Great Special Trip From Detroit April 27th.

The Panama Pacific International Exposition offers the people of this country the opportunity of a life time for education and entertainment. Every man, woman and child in this country ought to plan a visit to these great exhibitions and take advantage of the trip through our great western country, with its wealth of surprising beauty and interesting features. No sacrifice will be too great for such a trip, which will linger long in the memory and serve as an education beyond compare. Thousands have decided to go—thousands will go, and the majority of these travelers will pay the usual rates, but the wise traveler will take advantage of the wonderful low rates offered Michigan people, and secure the finest service on the trip, through the efforts of the World's Fair Company, who have been working for some time past on a combination proposition for those who desire to attend the exhibitions at a low rate.

The trips as offered include transportation in regular Pullman cars, the best to be secured. Every point of interest is included, even the taxi fares from depot to hotel are included. The hotels selected are all high class, the side trips are varied, the admissions to the fairs are included, in fact there is not a single penny of expense aside from the \$155 cent for actual meals.

All one has to do is make one payment to the World's Fair Company and every detail of the entire trip is taken care of. The next special trip from this section will be on April 27th and a fine party is already being made up. It will pay every reader to get the full information from the Detroit office at once. The World's Fair Company have completed every arrangement and there will be no disappointment, everything will be of the highest class and the saving on the expenses will be well worth while. For an educational, comfortable and enjoyable time make up your mind today to take this trip under the World's Fair management. Address all inquiries to World's Fair Co., 1703 Kresge Bldg., Detroit, Mich. Full information will be sent to you at once. Don't delay, as early reservations will prove best.

SOUTH U. S. TOLD TO RAISE MORE SWEET POTATOES

Agricultural Department Calls Attention of Farmers to Fact That Demand in Market Is Always Greater Than Supply.

Washington.—The department of agriculture is trying to induce the people of the southern states to grow large quantities of sweet potatoes. There is a steady demand for this vegetable, it is said, and in the South, where conditions are ideal, there is no reason why departmental authorities, who arrangements should not be made for meeting that demand. Strange as it may seem, the supply of sweet potatoes for the American market is never equal to the demand.

"The sweet potato," says H. C. Thompson, one of the horticulturists of the department, "is one of the most important food crops of the South, and the increase could be greatly increased without involving the unit value of the crop. Thousands of southern farmers do not have enough sweet potatoes for home use throughout the year, and very few of the small cities and towns of the South have vineyards or sufficient supply. The small cities of the West and Middle West are not supplied with sweet potatoes, except for a period of a few weeks in the autumn. With the extension of the modern methods of storage, all of these markets could and should be supplied."

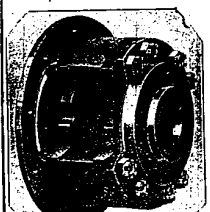

Some Special Foods.

It is not generally known that in various European localities Christmas eat bacon on Easter morning. In order to make it known beyond peradventure of a doubt that they are not Jews. In Lincolnshire, England, every good housewife serves meat for the Easter Sunday dinner, and at the same meal the old people of Shropshire eat the "last of the mutton pies." That is, they eat the last of the mutton meat remaining over from Christmas. A sort of economy with a religious flavor. Baked custard is the indispensable Easter Sunday dish in several counties of England.

A quaint Easter Sunday superstition is that on this day of the sun, on rising, gives three days of joy. With a persistence worthy of a better cause, the peasants of Saxony and Brandenburg station themselves on the hills before dawn on Easter morning, in the hope that they will behold the sun in the act of leaping.

STALLIONS!

Why do they often become so demoralized, even with light and duty, that they require a long rest from such service? It is due to the absorption into their system of poisonous bacteria, or germs of disease, both contagious and venereal, in serving mares or grades of health and disease. There are many of these bacteria and germs that are very injurious to the stallion, counteracting the growth of such germs in his system and keep him in normal condition, there is one Germicide Spore for mares.
