BRILLIANT ARRAY OF LAWYERS FOR U. S. IN RIGGS BANK SUIT I

Left to right, top: Attorney General Gregory, Jesse C. Adkins, Samuel Untermyer and Louis D. Brandeis. Bottom: Charles Warren and John W. Davis.

A brilliant array of lawyers will represent the government in the pending legal battle between the Riggs National Bank of Washington on the one side and Controller of the Currency Williams and Secretary of the Treasury McAdoo on the other. Louis Brandels of Boston, chief counsel for the government officials, will be assisted by Attorney General Gregory Giclietor General John W. Davis, Assistant Attorney General Joses C. Adkins. Mr. Unternyer, who was chief Samuel Untermyer and former Assistant Attorney General Jesse C. Adkins. Mr. Unternyer, who was chief counsel for the famous congressional "money trust" investigation, is said to be an authority on banking condi-

MULES AS GUN CARRIAGES

Unlooked for Result of an Experi-ment With a Jackass Battery.

Many strange and peculiar tests are on record in the ordinance annals of the army, but the fact that the ex-periment of using mules as gun car-riages was once made is not to be found there. The army's experience with the jackass batteries is unwrited

with the jackass batteries is unwrite, with the jackass batteries is unwrite, ten aistory. It was in the Indian wars of the late 50% down in New Mexico that the 50% down in New Mexico that so dierrage for artillery. A force of 52 with a soldiers had been sent into the with the comanche and Kiowa tribes. All supplies were transported by means of mule pack transported by means of mule pack transported by means of mule pack transported by means of the soldiers not along with them mountain heriters, which were carried on the soldiers of the soldiers with the soldiers of the soldiers with the soldiers and the sold in the soldiers with the form the sold the animals mount them and load and fire them. Before the operation could be gone through with the Indians would pirk off a few men and mules and would be for a way before the howitzers could be again put on the back of the mules. This experiment was made at old Fort Union, N. M., in the summer of 1856. John Catlin, a resi-

AMERICAN DOCTORS AND NURSES FIGHTING TYPHUS IN SERBIA

sistant Attorney General Jesse C. Addina al "money trust" investigation, is said to dean of Albany, who was a trumpeter in the Second United States Cavarry was present, and his story of the test follows:

A crowd gathered to see the test. The target was access a canon from the parade ground. An old patient looking mule was backed up to the history of the canon and a well cleaned and carefully primed mountain howltzer placed on its back. Under the direction of a young lieutenth howltzer placed on its back. Under the direction of a young lieutenth history and the parade the male so the shell would have been also she shell would be a cereant loaded the gun and adjusted the male so the shell would be the shell would be shell be shell with the target. The howltzer was fred by means of a fare aparticity inches long. The mule soon patienty, half saleep, and store and the shell would be shell with the state of the shell would be shell with the target and the trust of the work of the control of the whole the capacity and the experiment, and to turn its head to see what was doing. As the fuse burned heart can to turn its head to see what was doing. As the fuse burned heart can to turn its head to see what was doing. As the fuse burned heart can to turn its head to see what was doing. As the fuse burned heart can to turn its head to see what was caused to following its tail, that mule kept turn into to see what was caused to mountain however, but ready to send a shell somewhere with consideration to over. Some lay down, others ran in

to be an authority on banking consuall directions. The howitzer soon
wort off and the shell went screeching
straight for the officers' quarters.
It sore through the roof of the post
adjutant's house, smashing the chimnes and sending the ceiling down on
a Froighman who had been detailed
to cool for the adjutant and who was
to saing thap jacks in the kitchen. The
fritchiened mule feel over the olust,
and the United States Government's
first official experience with a Jackses
justicity was at an end.
It is a matter of unwritten/history,
homewort, that jackses
justicity was at an end.
It is a matter of unwritten/history,
homewort, that justicities were
received the service of surveyers and the verying degrees
of surveyers actually nred from mountion house, but the system never necame popular.
A combined steel and concrete Tall-

A combined steel and concrete rall-read cross-tie has been invented. The tic consists of a heavy steel case filled with concrete and re-enforced by a heavy steel bar through the center for rail attachments.

An Illinois taventor has combined a scraper, metal door mat and fiber mat in one article, the metal portion being thinged so it may be lifted for the dirt beneath it to be swept away.

A steel trailer, mounted on rubber-tired wheels, has been invented for hauling baggage behind an automobila, to which it may be attached by a special coupling.

EASY WORK FOR VENTRILOQUIST

HIS DUMMY IS OPERATED FROM BEHIND THE STAGE

Telephone Apparatus and Electricity Accomplish Mysterious and Astonishing Effects

Astonishing Effects
The modern ventriloguist is not a
ventriloguist at all—or at any rate he
doesn't need to be one.
The professional ventriloguist's act
sa familiar to us all. He usually stands
on the opposite side of the stage from
his dummy, and, when not asking questions of the latter, puris vignouslasway on a big black cigar. The symmetric of the "partnear the dump's and to be a before the dump's
and the contraint ones. Nor is that
all, for he turns and twist his head,
waves his arms, kicks up his feet, and
otherwise acts in a very lifelike manmer;
The secret of the dummy's solve.

ered in stentorian towes. Nor is that all, for he names and twists his head, was the arms, kicks up his feet, and otherwise acts in a very lifelike manier. The secret of the dummy's voice is the loud speaking telephone and of his actions various electro-magnetis. As may be guessed, both are operated by someone of the stage.

At a resert entertime electrical composition of the program was a "ventriloquist" act given by "W. D. Lindsey, who was assisted in his specialty by a little wooden dummy styled "Knowit-All." The manikin not only talked Pennark aby well, but moved his arms and head and wagged his jaw for the same one of the stage o

pounds, complete.

WHEN POLISHING FURNITURE

Remove the dust thoroughly before starting to polish.

For the crevices use a small stick covered with citotic or a brush.

Should there be any greasiness, wastle with vinegar and water before polishing.

rash with vinegar and washing.

Jolishing.

Use very little polish and apply on a pad of faunci or soft linen.

Be provided with a second duster, which to hold the furniture while olishing.

À CAMP OUTFIT

Items and Cost of a Complete, Equip-ment for Four Persons.

Camp outfits are of the most elastic

Camp outfits are of the most clastic nature, but the simplest outfit includes inxuries which a few years ago could not be purchased. The first consideration, says the independent, is the tent which should consist of the best waterproof canvas or slik with reconforced seams and eyelets.

If the tent is waterproof and strong If the tent is waterproof and strong more comfort can be enjoyed under it than if it was three dimes the size but leaky and uesely blown down. The wait tent type is the most suitable for camping purposes. The United States army has selected this type for its men, and by common agreement it provess the most satisfactors.

agreement it provess the most satisfactory.

A good waterproof tent of cotton, five by six feet, will cost about \$22 and \$22 a

whatless should complete the equipment.
From the above itemizing of articles it might seem as if the camper's
outift was rather a clumpy affair, but
in reality it is small and compact.
The total cost for four persons need
not exceed \$100 and neither its
weight nor bulk would make it difficuit of transportation.
The cost, moreover, should we apportioned through several years of
use \$A good waterproof can, for instance, should hast indefinitely when
properly kept in storace.

properly kept in storage.

Oiled Furniture.

This furniture frequently grows doll in appearance during the simmer mouths and needs to be cleaned at least once a mouth. On the purpose use a little successful to the property of the purpose use and purpose to the purpose use to brillance, but in swonderful removing all dirt, especially and the purpose marks. It will be presented in the purpose to the purpose to the purpose to the purpose use of the purpose use of
