turned Wednesday from a three
months tour of the Pacific Coast,
including the exposition and Yel-
lowstone Park, and are loud in
their praise of the entire trip.

Miss Martha Stange returned
the latter part of last week from
a visit with relatives in Toledo and
Port Clinton, Ohio. Her nephew,
Master Walter Buss, accompanied
her and will remain for a visit.

John R. Walters and family, C.
R. Ely and family and Ed. Millard
and family were Detroit visitors
Tuesday evening where they at-
tended the wedding ceremony of
Miss Mabel Hall to Mr. Glenn
Tuttle.

The offices of the Oakland divi-
sion of the Eastern Michigan
Edison Company, located at Roch-
ester, and from where the business
of the company in Oakland and
Macomb counties was handled,
have been permanently closed,
and the books, etc., transferred to
Detroit.

Much speculation exists as to
the probable cost of the Ford car
for the coming season, commenc-
ing with August 1. It is unau-
thoritatively stated that the car will
sell for in the neighborhood of
\$390, with a profit-sharing coupon
if sales total 500,000. This year's
output is said to have been in ex-
cess of 350,000 cars.

Three large farms in this vicin-
ity totaling an acreage of 340
acres have been sold to Detroit
parties the past two weeks. The
Crawford farm of 120 acres was
purchased by J. H. Webster of the
J. L. Hudson Company of Detroit,
the M. Sulkowski farm of 100
acres was purchased by a Mr.
McKay, a Detroit banker, and the
Parish farm was also sold to De-
troit parties, all three deals being
negotiated by Steele Bros. of
Detroit.

Charles Farley, a blacksmith,
employed with Harry Higby, was
struck by an automobile at Third
and Grand River, Detroit, last
Saturday evening, just as he was
alighting from an interurban car.
The impact rendered him uncon-
scious, and he was hurried to
Harper Hospital, where he re-
mained until the following Mon-
day. Three ribs were broken, be-
sides being badly bruised. The
car is said to be owned by a De-
troit laundryman, who paid the
hospital bill, and offered Farley a
cash settlement, which was re-
fused. He will probably be un-
able to take his place at the shop
for some time to come.

Difficulties in Pronunciation.
What is the most difficult English
place name for a foreigner to pro-
nounce? That is a question sug-
gested by a writer in the London Ob-
server. He plumps for Southampton as
the most difficult "port of call" for the
Frenchman bound for England. Ob-
viously it cannot be spelled phoneti-
cally, as there is no "th" in French. We
all have these little international dif-
ficulties. But the Frenchman gets
over the sea to Southampton by call-
ing it "Soudouton."

Difficulties Didn't Know.
Charles Dickens says somewhere in
his "American Notes" that American
corn bread is "about as digestible as
a kneaded phlegmion." Pretty nervous,
that, for a citizen of a country that
doesn't know how to cook anything as
good as a Johnny cake or corn pone.
Corn bread not only is so good that it
makes the mouth that knows it water,
but, Dickens to the contrary notwith-
standing, it is one of the most whole-
some "rough stuff" foods there are.—

**A Nervous Woman Finds
Relief From Suffering.**
Women who suffer from extreme
nervousness, often endure much
suffering before finding any relief.
Mrs. Joseph Snyder, of Tiffin, O.,
had such an experience, regarding
which she says:

"Six months I was bedfast with
nervous prostration. I had sick-
ing spells, a cold, clammy feeling,
and I could not stand the slightest
noise. At times I would almost
die to please. My stomach very
weak. My husband insisted on
my taking Dr.
Miles' Nervine, and I began to improve
before I had finished the first bottle
until I was entirely cured."

MRS. JOSEPH SNYDER.
221 Hudson St., Tiffin, Ohio.
Many remedies are recommended
for diseases of the nervous system
that fail to produce results because
they do not reach the seat of the
trouble. Dr. Miles' Nervine has
proven its value in such cases so
many times that it is unnecessary
to make claims for it. You can
prove its merits for yourself by
getting a bottle of your druggist,
who will return the price if you
receive no benefit.

RURAL SCHOOL TERM SHOULD BE EXTENDED

By P. P. Claxton,
U. S. Commissioner of Education.

In most States school days for
country children are fewer than for
city children. The average length of
school term in cities of the United
States is one hundred and eighty-
five days; in rural communities one
hundred and thirty-eight days, a dif-
ference of forty-seven days. In some
States the difference is much greater
than this average. In many counties
the average length of the rural
school term is less than one hun-
dred days, and in some districts it is
less. On the other hand, in the
States of California, New York and
Connecticut, the country schools are
in session one hundred and eighty
days in a year, and in several other
States almost as long. The country
schools of Rhode Island are in ses-
sion one hundred and ninety days in
a year.

All children are to have an equal
opportunity for education we must
even up the school terms of the
country and give to all country chil-
dren at least as many days as are
now given to city children. One
hundred and eighty-five days of
schooling a year for all children will
not be too much. There are coun-
ties in which the schools, both for
city and country, are in session from
two hundred and twenty to two hun-
dred and fifty days or more in the
year. American children need as
much education as those of any other
country, and this applies to the
rural as well as urban districts.

AN AGRICULTURAL COUNCIL

By T. N. Carver,
Professor of Economics, Harvard University.

Every city has its chamber of com-
merce or its Board of Trade. The
purpose of such an organization is
to study economic and business op-
portunities of the city and promote
enterprises which will help to build
the city. Does any one know of a
good and sufficient reason why every
rural neighborhood ought not have
a similar organization?

In Germany they already have such
organizations. They are generally
called the "Landwirtschaftsrath" or
agricultural council. Some students
of the problem of rural organization
are strongly of the opinion that such
an agricultural council is necessary
before much can be done for the bet-
tering of rural credit, for the market-
ing of farm products. There is no
object, for example, in having more
capital in a farming neighborhood
unless the farmers know without any
guesswork just how to use that cap-
ital so as to increase the production
and the profit of their farms. If all
the leading farmers of a neighbor-
hood would lay their heads together
and talk over the situation and study
the opportunities for new investment,
they would be less likely to make
mistakes than if they work secretly,
as separate individuals.

CIVILIZATION'S GREATEST TRAGEDY.

Extract from article by W. D. Lewis,
president Texas Farmers' Union, op-
posing woman's suffrage:
"We are willing to join in every ef-
fort to elevate woman but will assist
in none to drag her down. The de-
scent of womanhood is the most awful
tragedy in civilization. As she sinks
she may, like the setting sun, tint
the horizon with the rays of her dis-
torting light. She may tenderly kiss
the mountain tops of achievement
as well as she may, like the sinking
sun, allure the populace with her
beauty as she disappears for the night
but when she steps downward, the
earth is as certain to tremble and
plunge into darkness as death is to
follow life."
