

Chicago Says Dems Obligated To Meet There

CHICAGO -- James C. Worthington, chairman of the Chicago Nonpartisan Committee, 1968 National Political Convention, said the group which helped bring the 1968 Democratic Convention to the Windy City said the convention is bound by contract to remain in Chicago.

Speculation that the convention may move to Miami has

been two years ago. Mangan--called "Angelone" by his fellow Seaside police officers--agreed to resign his duties as a priest to join the department as a full time patrolman.

WASHINGTON -- President Johnson's call for registration of all guns has been turned aside by two votes in the House that appeared to kill all hope for such legislation this session.

By votes of nearly 2 to 1 the House last week defeated registration amendments to a bill that would ban interstate mail order sales of rifles, shotguns and ammunition, plus over-the-counter sales to residents of nonadjacent states.

A final vote on the bill and on numerous pending amendments that could still weaken or strengthen it was put off until sometime this week.

NEW YORK -- Arthur J. Goldberg, who recently resigned as United States representative to the United Nations to return to his private law practice, will act as defense counsel for Rev. William Sloan Coffin Jr. in his first case.

Coffin, Yale University chaplain who was convicted in June of conspiring to counsel youths to defy the draft, announced at the end of last week that Goldberg had agreed to be his appeals attorney.

The chaplain was convicted along with Dr. Benjamin Spock and two others and was sentenced to two years in jail and a \$5,000 fine.

LOS ANGELES -- Ten of the 50 U.S. dental schools are in financial trouble and may close unless they get "a massive form of support," warns Dr. John I. Ingle, dentistry dean of the University of Southern California.

"The only form of support we can see is the federal government," he said.

MEMPHIS -- Atty. Arthur Hanes, who arrived in Memphis angry over the treatment of his client, was served with a judge's order to limit his off-the-cuff comments in the trial of James Earl Ray, accused assassin of Dr. Martin Luther King Jr.

The order was a copy of a directive issued by Criminal Court Judge Preston Battle forbidding principals in the case from granting interviews to newsmen or making "extra judicial" statements.

WASHINGTON -- The Treasury Department has worked out a tax reform plan that would eliminate the possibility that individuals with large incomes could escape federal income taxes entirely.

The reform plan would also provide a much simpler tax computation. It does not have the final endorsement of President Johnson and could be changed before he submits it to Congress later this year. His approval is expected.

WASHINGTON -- According to Ward Just of the Washington Post, Republican presidential candidate Richard M. Nixon will make a decision on his vice presidential nominee this week, and the evidence points to a liberal, possibly New York Mayor John Lindsay.

Just stated that the former vice president, now considered to have the Republican nomination all but locked up, is actively considering nine names: Lindsay, California Gov. Ronald Reagan, Illinois Sen.

NEW YORK -- Two airlines suspended shuttle flights from metropolitan New York airports Friday as continued congestion delayed thousands of passengers.

A combination of bad weather and a safety campaign by air traffic controllers stacked planes on runways and overhead, and airlines were reporting routine delays of up to two hours.

Airline spokesmen said many inbound flights during the day had to be diverted to other cities because they used too much fuel flying holding patterns while waiting to land.

SEASIDE, Calif. -- The Rev. Terrance J. Mangan, 30, was suspended by his bishop recently after Mangan spurned orders from Valdez City to give up part-time police work.

Charles H. Percy, former Secretary of Health, Education and Welfare John Gardner, Gov. George Romney, Texas Sen. John Tower, Washington Gov. Dan Evans, Mass. Sen. Edward Brooke and Pa. Gov. William W. Scranton.

WASHINGTON -- Homer Thornberry, judge of the U.S. 5th Circuit Court of Appeals in New Orleans, is facing criticism and stiff questioning by

the Senate Judiciary Committee concerning President Johnson's choice of Thornberry to succeed Abe Fortas as an associate justice on the Supreme Court.

Last Saturday, Thornberry sat calmly while Sen. Sam J. Ervin Jr. (D-N.C.) assailed his 1966 appellate court ruling that pointed the way for all poll taxes to be tossed out.

Committee Chairman Sen. James O. Eastland (D-Miss.)

said some members want to wait until after the Fortas showdown to question Thornberry because they feel no court vacancy exists unless Fortas is approved.

NEW YORK -- Democratic presidential hopefuls Sen. Eugene J. McCarthy (Conn.) and Vice President Hubert H. Humphrey have accepted invitations extended by the three major television networks to

debate their differences on Vietnam and other issues on prime television time. No definite date has been set.

McCarthy said he had accepted an offer by CBS to meet Humphrey on a program moderated by Walter Cronkite. Humphrey spokesman said he had accepted a long standing invitation to meet McCarthy on an expanded version of "Meet the Press." Neither candidate would say if they accepted the

others offer.

Both expressed happiness over the ensuing debate.

LAKE PLACID -- Lynn Holley, 23, of Lake Placid, N.Y., and formerly of Grosse Pointe, died of a gunshot wound in the back at a private ranch, near the family home in the Adirondack Mountains.

Miss Holley's assailant, John Swift, 25, is being held in Lake Placid Hospital "for medical

reasons." Swift has been charged with illegal possession of a loaded firearm.

MILWAUKEE -- A capacity audience in a giant circus tent waiting for a festival music program, was scattered when a giant wind storm blew the tent down.

Mostly teen-agers, the 2,500 persons were not seriously injured, although 40 were treated at hospitals.

NATIONAL ROUNDUP

sprung from a strike by the International Brotherhood of Electrical Workers against the Illinois Bell Telephone Co.

The strike has prevented installation of telephones, television and teletype equipment in the International Amphitheater, where the convention is scheduled to open Aug. 26.

WORTHY -- A well-known Republican and civic leader--declined to comment on the possibility of a law suit if and when the Democrats decide to nominate their presidential hopeful elsewhere. He did say, "We will not stand idly by and let the convention be moved."

GARY -- Sixty Gary, Ind., 275-member police force failed to report for duty Friday night and then Saturday in what Chief James Hilson termed a wildcat strike.

A temporary injunction issued by the city was issued by Lake County Superior Court Judge Frank A. Stodola ordering absentee policemen to return to duty.

The 60 patrolmen, all assigned to the traffic and patrol divisions, reported in sick, Hilson said. He said it apparently resulted from Mayor Richard G. Hatcher's refusal to budget a wage increase for patrolmen.

AKRON -- Unrest in black neighborhoods of Akron's south side flared into minor disturbances last week. No major outbreaks were reported but boys were wounded by a shotgun blast and a man was seriously injured when hit by a rock.

A 9 p.m. curfew was ineffectual and later lifted.

Some Akron ministers have called upon Mayor John Ballard to appoint a study commission to examine the current disturbances and mentioned specifically "relations between the black community and police."

Ballard said some months ago after a racial incident here that he saw "evidence of a deep and serious undercurrent of hostility toward the police."

This brought from Edwin Parnis, president of the Akron chapter of the National Association for the Advancement of Colored People, a suggestion to Ballard that he consider "the possibility there is also a deep and serious undercurrent of hostility on the part of some policemen toward Negro citizens."

LAS VEGAS -- Fire destroyed a section of the south wing of the Sahara Hotel Saturday which resulted in 32 persons being treated and injured for cuts and smoke inhalation. Admitted to Southern Nevada Memorial Hospital for smoke inhalation was a hotel employee, Dessie Manigo, 22.

Hotel officials estimated damage to the 40 destroyed rooms at \$250,000. The origin was pinpointed to one or two rooms but the cause has not been determined.

NEW YORK -- Two airlines suspended shuttle flights from metropolitan New York airports Friday as continued congestion delayed thousands of passengers.

A combination of bad weather and a safety campaign by air traffic controllers stacked planes on runways and overhead, and airlines were reporting routine delays of up to two hours.

Airline spokesmen said many inbound flights during the day had to be diverted to other cities because they used too much fuel flying holding patterns while waiting to land.

4 Redford Pupils At Workshop

Four Redford Township high school students are attending a two-week journalism workshop at the University of Detroit, this summer.

Attending the specially designed workshop, geared for high school newspaper and yearbook editors are:

Kenneth Clark, son of Mr. and Mrs. Charles Clark of 20048 Woodworth, Wanda Smith, daughter of Mr. and Mrs. Ralph R. Smith of 19294 Woodbine; Janice Hayes, daughter of Mr. and Mrs. Thomas Hayes of 9111 Dixie; and Thomas Skut, son of Mr. and Mrs. Thomas Skut of 19909 Beech Dale Road.

Miss Smith and Clark are seniors at St. Agatha High School where they are co-editors of the yearbook.

Miss Hayes is a senior at Thurston High and is a section editor of the school yearbook. Skut attends Catholic Central High where he is editor of the school newspaper.
