Here are three never before published:

Provincence, R. I.— For the benefit of women who suffer as I have done I wish to state what Lydia E. Finkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Finkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine,"—Mrs. S. T. MAKE COMPANION OF CHILD

Industry.

chicago Newspaper Gives Some Ad-vice That it Would Seem Worth While to Heed.

"I can't help thinking what sport it would have been if 'Paw' had been born a little boy so he could play with min." I have complaint of a little lad whose father feels that it is time wasted to play with the little man in bils house.

Too many of us have this opinion. We think that the children should sit around quelty when we reach home at night, and that we must not be disturbed unless the fancy takes us to chat with the kiddles. When revelations of the sort quoted are confessed by a child, the father cannot expect the joyous welcome home that he might receive, if the homecoming were a signal for "some fun."

They are bound to get tun somewhere. So be such a good pal of that boy of yours that he won't be compelled to seek his good times with another boy's father—or, worse, with companions of whom you would, not approve.

What is dignify if it separates you from your son? Forget it and get acquainted with the children.—Chica-go American.
