Influenza and hard colds, caused by the sudden changes in the temperature of the last few weeks, are prevalent among adults as well as children in this section, and almost everyone you meet has the same complaint—headache, fever, chills, aching bones and watery eyes, to say nothing of a continual "bark."

A little excitement was caused Sunday morning by a runaway on Grand River. A horse attached to a milk wagon, became frightened at the D. U. R. car from the east and started up the street, but changed its mind after running from the Grace house to Cook's store and turned in at the hitching rails. Several "heroic" attempts were made to stop the animal.

A number in and about Farmington are sending the Enterprise to absent friends as a Christmas present, and if you have never been away from home you do not know how much such a gift is appreciated. We receive letters nearly every week from people away from town telling us what a "pleasure it gives them to receive the paper each week." It tells of things you would never think of writing. A better present for \$1.00 would be hard to find.

F. H. S. basketball team met a severe defeat last Friday evening when they met the fast rivals from the St. Elizabeth Y. M. C. of Highland Park.

The visiting team was much heavier and older than the local boys, and when it came to "shooting" baskets they were regular "sharks." They were able to drop the ball from almost any angle through the basket.

Some of the players on the team had severe colds and should have been in bed "doctoring up" instead of playing. Features of the game were the shooting of baskets by DeYunker, Molitor and Young, each getting five baskets from the field.

The preliminary between Rival reserves and F. H. S. reserves was won by the home team 11 to 10. This game was fast and full of excitement.

## Stephen Tredway Passes Away

Stephen Tredway, for 27 years a resident of Farmington, died Wednesday evening at 6 o'clock at his home south of this village, at the age of 84 years, 2 months and 22 days. Mr. Tredway had been in failing health for some time and on Wednesday last week was taken with an attack of acute indigestion followed by asphyxiation last Thursday morning, when on going to the house to treat him Dr. Holcomb found the room full of escaping coal gas, and upon further investigation, found Mr. Tredway and his daughter, Sarah, unconscious from asphyxiation. They were soon revived by fresh air and restoratives.

He was born September 25, 1831, in Beaconsfield England and was married to Catherine Blinks. February 14, 1854, who died 23 years ago this month.

They came to this country in 1855, settling first in New Jersey and later in Chicago and Detroit. In the latter place he was a contractor and builder, and had much to do with the building of Detroit in the sixties and seventies.

In 1877 he moved to Livonia and ten years later came to Farmington, where he has resided since. Mr. Tredway was a lifelong Baptist, one of the staunch supporters and the senior deacon of the Farmington Baptist church.

Surviving are two sons and five daughters, Arthur, of Lansing; Stephen of South Bend, Ind.; Miss Sarah at home; Mrs. Nathaniel Odell, Highland; Mrs. Lucius Newman, Redford; Mrs. Seymour Vlier, Midland; Mrs. Ross V. Wells, Pontiac. And a sister, Mrs. Martha Wilbee of Adrian.

The funeral will be held from the house Friday afternoon at 2 o'clock eastern time. Rev. Frank Watt, of Redford will officiate and burial will take place in Oakwood cemetery.

## Scene of Photoplay on Island

Tobago, an island twenty miles northeast of Trinidad in the West Indies and popularly conceived as the scene of Robinson Crusoe's long and solitary vigil, will be pictured for the first time in a "Million Dollar Photoplay" now in course of production.

Crusoe's island affords a wealth of picturesque scenery and much of its wild beauty still is in the primeval stage. The waters surrounding Tobago are clear as crystal and offer wonderful advantages in photographing 150 diving nymphs in scenes which will be used in the big production.

The picture has not yet been given a title and will require sixteen more weeks, to complete. A film corporation sent more than a thousand players, directors, photographers and a business force to Kingston, Jamaica, the latter part of August. Since that time \$375,000 has been spent in the work, and it is estimated before completion it will cost between \$750,000 and \$1,000,000.

In the famous Rose Gardens of Jamaica, the world's largest studio stage was erected, with 1000 dressing rooms and a rehearsal hall for 1000 performers. A south African animal importing concern furnished an extensive menagerie and the government of Jamaica permitted the landing of animals.

A fortress dismantled for 250 years, overlooking the entrance to Jamaica Bay, was leased and will be used in battle scenes. In field affrays 25,000 participated, 10,000 of them Hindoos who worked on the Panama canal, and were interned in Jamaica at the outbreak of the European war.

## Recommended for Croup

W. C. Allen, Bosely, Mo., says: "I have raised a family of four children and used Foley's Honey and Tar with all of them. I find it the best cough and croup medicine I ever used. I used it for eight or ten years and can recommend it for croup." Same satisfactory results for coughs and colds. For sale by T. H. McGee.

We presume there never was a newspaper in any locality that gave all the news. It is often that some one comes or goes that the reporter does not see. It happens that the same family is missed several times and they get the impression that the editor does not want to mention them. This is a mistake. Every local item is wanted, but it takes a lot of exertion to get a column of news in a town of this size. You can help us by telling the Enterprise when you have have company make a trip out of town or have any news of general interest. It will be appreciated. Our phone number is 25, and we like to hear the bell ring.
