Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, it is swollen, and prevents the air from reaching the eardrum. The result is, unless the inflammation can be taken out and the tube restored to its normal condition, the hearing will be destroyed forever. It is nothing but an inflamed condition of the mucous lining of the Eustachian tube. The only way to cure deafness is by constitutional treatment. A course of treatment will cure deafness. Send for circular. J. J. CHERRY, & CO., Toledo, Ohio.

Local News

New moon last Sunday

Your Easter bonnet next
