Money Saved by Buying Used Cars Now

Few people realize it, but now is the most opportune time of the year to purchase used cars. Most of the big dealers have a complete line—it is near inventory time and they are anxious to convert the cars into money.

Another instance was related where on Monday last a 1923 model touring car, having a mileage of less than ten thousand miles—mechanically in the smallest detail, including electric lights and steering gear—had been purchased for \$1,200.

Neatly Put. A little girl was learning the Golden Text for the next Sunday's lesson. Closing the book, she began, "Wilt thou be angry with me because I am—and-ab, and ab," when her little sister, who was at play, but had partially caught the words, thinking to help her out, said, "And whosoever is hated nearby is not wise."

Reform. A small tailor shop on the Bowery burned out, and the tailor moved to the next block. The morning after the fire the following sign appeared in the window of the wrecked store: "Will be open for business at No. 2 street on December 9, and will be your honest friend when alterations are completed."

Patent Leather. Patent leather shoes can be kept like new if they are rubbed over occasionally with milk and polished with a soft dry cloth.

Nearly Always. "When is a poem not a poem?" asks the Birmingham Age-Herald. When it's in a magazine—Macon Telegraph.

WHAT?

Are you having constant trouble with your eyes and still delaying in giving them the care they need? You should see an optician at once.

Bom Schanplaze des europäischen Völkerrrieges.

Wenn das Langsamwerden des deutschen Angriffs vielfach als Erlahmen aufgefaßt wird, darf man nicht vergessen, daß es sich bei Verdun nicht um rasche Schlagen des Völkerrrieges handelt, in dem nur die einseitigen Erfolge gewaltiger Massen an der entscheidenden Stelle einen raschen Erfolg ergeben kann.

Es ist vorerst darüber zu klären, wie weit es möglich ist, die französische Ausrüstung bei Verdun deshalb richtig handelt, weil sie befristet ist, auf das Eingreifen französischer Kräfte und einen sich daraus ergebenden Sieg zu hoffen.

Ungehört raubt England unsere Post

Amerikanische Geschäftsleute in Deutschland beschwerten sich darüber, daß die Postverbindung mit ihrem Heimatlande durch England unterbrochen ist. Unter den Umständen ist es für sie ja gut wie unmöglich, Geschäftsverbindungen aufrecht zu erhalten.

Die Ermerdung der irischen Führer, die mit ihrem Tode in die Unsterblichkeit der Welt eingetreten, läßt sich nur durch die vollständige Annullierung der britischen Regierungsmänner erklären.

SEVERE LOSS BY LEAF CURL

Please be Responsible for Failure of Peach Crop in Some Orchards—Use Bordeaux.

It has been estimated that leaf curl causes an annual loss of two millions of three millions of dollars to the peach industry of the United States. It is largely responsible for the failure of the peach crop in some orchards and for the short life of the trees.

Sprayed and Unsprayed Peach Foliage—Twig on the Left Unsprayed—Twig on the Right Sprayed With Lime-Sulphur in Early Spring Before Buds Start.

can readily be distinguished from that of leaf curl. The leaves affected by aphid do not become thickened and reddish or yellowish green in color. The spores of this fungus live under the rough bark and in the crevices of the twigs during the summer and winter months, germinating early in the spring and attacking the young leaves as soon as the leaf buds begin to expand.

RICH SOIL FOR RASPBERRIES

Northern Slope is Generally Better Than Southern One—Keep Land Well Cultivated.

Raspberries do well on any rich soil, but the suckering classes, which include chiefly the red varieties, produce rather better in less heavy loam. While the black-cap varieties do best in a sandy loam, a northern slope is generally better than a southerly one, as it is less liable to injury from drought.

RED AND BLACK RASPBERRIES

Plants Should Have Shallow Culture, as Roots Are Near Surface—Crop Is Profitable.

Red and black raspberries should be set six by six, which will require 1,210 plants per acre. These plants must have shallow culture, as their roots are all near the surface.
