From Suffering

Mrs. Mary A. Dean, Taunton, Mass., in her 85th year, says: "I thought I was beyond the reach of medicine, but Foley Kidney Pills have proven most beneficial in my case."

Mrs. Sam A. Hoover, 17th Point, N. H., writes: "My kidneys were so weak at night and I had to get up from five to seven times. Now I do not have to get up at night, and consider myself in a truly normal condition, which I attribute to Foley Kidney Pills as I have taken 'nothing else'."

Mrs. M. A. Bridges, Robinson, Mass., says: "I suffered from kidney ailments for two years. I commenced taking Foley Kidney Pills ten months ago, and through I am 61 years of age, I feel like a 16-year-old girl."

Foley Pills are tonic, strengthening and up-building, and restore normal action to the kidneys and to a disordered and painful bladder. They act quickly and contain no dangerous or harmful drugs.

LEGALIZING VIOLENCE

The petitions now being circulated by organized labor asking that the constitution of the state be amended so as to take from the courts the power to issue injunctions in labor disputes is one of the most arbitrary and revolutionary moves ever made in a democratic country in time of peace. The suspension of the writ of habeas corpus would be fraught with no more danger to the rights of citizens than the depriving of certain classes of our people of the right to seek this remedy to prevent the destruction of their property and the ruin of their business. It is the most radical kind of class legislation because it seeks to deliver up on class of our citizens, bound and helpless, to the tender mercies of another class.

We might look upon this move with more or less complacency if the evil was to affect only the class at which it is aimed, but the evil effects from such legislation will touch every citizen of the state. We cannot isolate such a vicious principle. Sooner or later the whole people, who pay all the bills in the end, will taste the bitter fruit, and it is better that they should realize this before putting their hands to a petition which is bound to handicap their commercial activities, work disaster to their industries and open the door to a whole flood of vicious legislation. If the fundamental law of the state is to be changed so as to deprive the manufacturer of the power to protect his property by injunction, it will pave the way for an orgy of disorder and destruction against which the local authorities will be powerless.

Organized labor may deny that it intends either disorder or destruction, but the very fact that it is asking that the legal restraints upon such action be removed proves the case against it. If a business man's property is threatened with destruction at the hands of disgruntled employees or anyone else he is not entitled to the entire force of the commonwealth to protect it? If organized labor does not intend to coerce the employer by threatening the destruction of his property why is it making such strenuous efforts to deprive him of the legal protection which he has had since the foundation of the republic? The motive behind all this activity is too transparent to deceive any citizen who will acquaint himself with the facts.

It is time that the people realized that they have to pay, in the final accounting, for all labor disputes, strikes, lockouts and boycotts. This act is unreasonable. Have the people of any city in this state so many factories that they can afford to open the doors to fire and destruction? Are we not all vitally interested in the payrolls of our factories? Are we not all affected adversely when those payrolls are shut down? Can we afford to place our factories at the mercy of those who respect not the personal or property rights of another? The vast majority of our workmen are orderly and law-abiding citizens, but there are, unfortunately, too many to whom the destruction of property appeals as the best arguments which can be used in the settlement of labor disputes. Before our citizens give their assent to this movement they should consider the patent fact that organized labor would not ask for this power if it did not intend to use it.
