He Removed the Danger Signal

Frank W. Sherman, Jackson, N. Y., writes: "I suffered with kidney troubles had a dread feeling in my back, did not have any appetite and felt all the time as if I used Foley Kidney Pills and in a few days began to feel better and now have entirely recovered and have had no return of my painful symptoms. One cannot but become nervous and feel dizzy and weak when the kidneys fail to filter and throw out of the system the poisonous waste matter that causes kidney troubles and bladder ailments. Backache is one of Nature's danger signals that the kidneys are clogged up and inactive. It is often followed by rheumatism, annoying bladder or urinary disorders, and even swelling under the eyes, swollen ankles and painful joints. Foley Kidney Pills put right at the source of trouble. They invigorate the kidneys to healthy action and when the kidneys properly perform their function the poisonous waste matter is eliminated from the system."
