NEW BUILDINGS FOR STATE FAIR

Improvements Will Cost Over \$150,000, Says Manager.

COLISEUM WILL SEAT 15,000

Floral Hall, Art, Woman's and Poultry Buildings, New Entrance, Sidewalks and Macadam Roads to Be Constructed During the Summer Months.

Improvements costing a total of more than \$150,000 are to be made at the Michigan State Fair Grounds during the summer, and when the 1919 exposition opens for ten days on Sept. 4, Michigan grounds will be superior to any similar grounds in the United States.

Through the efforts of G. W. Dickinson, general manager of the Michigan State Fair, new buildings will be erected on the grounds, as well as a large new entrance, additional bleachers, a lighting system, concrete sidewalks and macadam roads.

Will Seat Over 15,000.

The coliseum, which will be similar to the coliseum at the Indiana State Fair grounds, Indianapolis, will have a seating capacity of over 15,000. In addition to being used during the State Fair, it will undoubtedly be the meeting place of large conventions and similar gatherings which are not held in Detroit at the present time because of no suitable building. The coliseum will cost about \$100,000 and will be constructed north of the Automobile Building, with which it will be connected.

Other buildings which will be constructed during the summer are an Art Building, Floral Hall, Poultry Building, as well as a Woman's Building. Work upon the Woman's Building, Art Building and Floral Hall will be commenced at once, and all will be finished by the time the Fair opens. It is probable, however, that the Poultry Building will not be completed until later in the year.

Mr. Dickinson announces that the additional bleachers, which will seat several thousand people, will cost about \$40,000 and will be erected for the convenience of many persons who do not want to pay for seats in the grand stand or the present bleachers and will be admitted to the new bleachers for 10 cents.

This will give every one an opportunity to see the speed event and the horse show at a nominal price.

New Entrance to Cost \$5,000. The new entrance to the grounds will cost about \$5,000 and is to be located at the southwest corner of the Fair property, Mr. Dickinson says. That, with the additional entrance, congestion due to automobile traffic will be eliminated.

New Sidewalks Costing about \$4,000 are to be built, as well as macadam roads, and the appearance of the grounds will be generally improved.

"With the new buildings and improvements completed at the Michigan State Fair Grounds will provide a wonderful place for the holding of our annual exhibitions," said General Manager Dickinson. "We now have agricultural, dairy, automobile, executive, horticultural and main buildings as well as the machinery hall and grand stand, all of which are large and in good repair. Our horse barns as well as the buildings for the other live stock are being repaired and painted and will be in first class shape for the 1919 Exposition, which will be the greatest Fair of its kind ever held in the middle west."

"We are now making arrangements for many attractions and can assure Michigan residents that the amusement and entertainment features will excel anything brought to the State Fair in the past."

Big Poultry Show at Fair. The 1919 poultry and pet stock show at the Michigan State Fair was the largest exhibit of the kind ever held in the state, and it is expected that the 1919 show will also be a record breaker. General Manager Dickinson says that inquiries are being received from poultry men residing in all sections of the state.

Children to Be Cared For at Fair. Mothers who attend the Michigan State Fair, which will be held at Detroit Sept. 4 to 13, will have an opportunity to leave their children in the new Woman's Building, where they will be the best of attention. General Manager Dickinson says that competent nurses will look after the children, and it is expected that the 1919 show will also be a record breaker. General Manager Dickinson says that inquiries are being received from poultry men residing in all sections of the state.

The Best Days to Go.

"The steamer lines operating on the Detroit river and the lakes are being depleted of much business this year because thousands of persons are of the opinion that the boats are loaded to capacity every day of the week," said O. S. Dustin, general passenger agent of the Ashley & Dustin line.

"Because our steamers, as well as all other river and lake excursion boats are usually filled to their passenger allowance on Sunday, many inquiries are being made by persons who want to know when is the best time to take a cruise to Put-In-Bay and Cedar Point."

"We can assure everyone that on Mondays and Fridays throughout the remainder of the summer that the steamer Put-In-Bay will not be filled to one quarter of its passenger allowance. No society, factory or fraternal excursions are scheduled for these days and as a result persons who wish to go to the Lake Erie resorts and be assured that the steamer will not be crowded should plan to make the trip on either Mondays or Fridays."

"Our passenger business on Sunday has been unusually large, but we have taken care of the crowds and very few people have been unable to take the trip because the boats were filled to their passenger allowance."

"While the crowds are small on Mondays and Fridays, there are always scores of vacant chairs on and the ball room is never crowded."

"The steamer Put-In-Bay was built to accommodate over 3,000 persons without crowding, and our average week day passenger list does not average much over 750."

A Good Thing for Children.

Foley's Honey and Tar is a particularly good cod, cough and cold medicine for children because it contains no opiates or habit forming drugs. The "little colds" of summer, as well as the long standing, deep seated coughs, that hang on for months, are banished by its use. The first dose brings relief and comfort. For Sale by T. H. McGee
