INTERNED MEN MAKE GARDEN

German Sailors Relieve Monotony Existence by Raising Vege-tables.

In order to relieve the monotony of routine work in the thed-up German steamships, officers and men have turned gardeners and truck farmers and have a flourishing garden under cultivation. The vegetable garden is being cared for by the officers and inen of the steamships Amerika and Cincinnati of the Hamburg-American line, while the rose and flower garden is carefully weeded and looked after by the officers and men of the North German Lloyd liners, the Koin, Willeland and Willeland.

Many varieties of flowers, including roses, sunflowers, sewet peas, gerantums and pansles-are in bloom. In the vegetable garden, ocra, beans, peas, beets, carrots and lettuce predominate, and the men are tooking for warm, sunny days to ripen them.—

A senior pupil teacher, who was noted for his dilatory habits and slovenly appearance, was one day instructing his class in the art of economy.

"Buys," he sald, extending his not over-clean fingers in the direction of the class—"boys, in addition to being a total abstainer and nonsmoker, I am a vegetarian. Now, Johnny Brown, tell me, what is a vegetarian?"

"If you please, sir," answered Johnny Brown, glanching toward the extended fingers, "It must be a man who don't use soup!"—New York Telegraph.

over this end of town."

How to Etch Glass.

A simple way to etch glass is to warm it carefully; if heated too rapidby it will crack. Rub parafils or beeswar over ble warm surface of the glass, and then with a blunt instrument print the desired wording. To some fluorspan (calcium founde) placed in a metal dish, add enough concentrated sulphuric acid to moisten the powder. Place the glass, with the market side down, over the metal dish containing the above chemicals and leaves to over night. In the moraling, scrape the parafils off and the deglass.
