Getting What He Deserves.
 Nestling in a newspaper corner next to the Panama-hat ads we find this stray remnant of a heep of throbs:
 "The first face the baby sees in this world is full of kindness, and the last to bend over him when he is old and dying is full of pitying tenderness. It is the faces he sees in between that cause him all his troubles."
 This is a clear sweet thought, but it strikes us that the "in between" faces are looking at him and very likely reflecting back to him just about what they see. Quite often it is not other kindness or tenderness, for, taking it by and large, this is a fairly just world.—Collier's.

ROBERT J. & D. A. JOLLIFFE, OF PLYMOUTH, MICHIGAN,
 Had their automobile (Detroit) Factory No. 1241, State License 87000, stolen out of their garage on the evening of August 10th. The car was taken after eleven o'clock and neither the automobile nor the thief has been found. The automobile is insured with the Citizens Mutual Automobile Insurance company of Howell, Mich. Adv.

RAW BEEF AS ILLUMINANT
 Scientist Proves It is Possible to Read by Light Given Off by Meat.

There is electric light, gas light, candle light, and there are other well known methods of illumination, but the strangest of all lights is that discovered by Professor Molisch, a well-known Austrian scientist.

He has recently demonstrated that it is possible to read a newspaper by the light of a raw beef or pork sausage. All unminced meat contains a microbe which gives off light, and with saucages, when the microbe is present, the light is much stronger than that given off by whole joints. These particular microbes do not indicate decay. Indeed, in no case have they been found in meat which was unfit for human consumption. So you can read by your sausage first—and then eat it, according to Professor Molisch.

The stumps of old trees often give off a precisely similar light, which scientists say is due to microscopic animals which die as soon as the wood is sapless. The phosphorescent light on the ocean comes from minute animals which live on seaweed.

It is said that the Cuban firefly provides a satisfactory light. The secret of the light which this beetle gives is undiscovered. Its great peculiarity is that it appears and disappears spasmodically, so that the Cubans need to keep about a dozen insects in a bottle at once, in order to be sure of getting a light bright enough to read by.

Unbiased View.
 Hazel—Young DuShitt is considered the lion of the season. Have you met him?
 Almee—Yes; and, judging from his manners, he's more of a donkey than a lion.

Spunky.
 The Lawyer—The precedents are against you, ma'am.
 The Lady—Well, sue them, too, then.

Everybody needs it—stored for emergency in a well-developed, well-preserved, well-nourished body and brain.

Grape-Nuts food stands preeminent as a builder of this kind of energy. It is made of the entire nutriment of whole wheat and barley, two of the richest sources of food strength.

Grape-Nuts also includes the vital mineral elements of the grain, so much emphasized in these days of investigation of real food values.

Crisp, ready to eat, easy to digest, wonderfully nourishing and delicious.

"There's a Reason" for Grape-Nuts

GETTING READY FOR THE BREMEN AT NEW LONDON

After agents of the submarine line between Bremen and the United States visited New London recently it was reported that the Bremen, sister ship of the Deutschland, was expected at that port. The rumor was strengthened by the fact that the work on the state pier, shown in the photograph, is being rushed to completion.

BOYS IN MEXICO HAVE A FIELD DAY

The American troops in Mexico recently held a field day and the program was made up of many unusual events. The photograph shows the tag-of-war.

WARREN IN A HURRY

This snapshot of Senator Francis E. Warren of Wyoming evidently caught him in a hurry despite the warm weather prevailing in Washington.

FEDERAL FARM LOAN BOARD

These are the members of the newly created farm loan board, appointed to administer the rural credits law. In the center is George W. Norris, executive head of the board. The others, left to right, are W. S. A. Smith, C. E. Lubell and Herbert Quick.

FRENCH AVIATION CAMP AT VERDUN

One of the most remarkable photographs taken of a bird's-eye view of an aviation camp. The picture was taken from a French aerodrome about 500 meters directly over a French aviation camp near Verdun and plainly shows the hangars and in front of them the insectlike war planes. Grouped about the hangars are motor trucks and cars. The broad white streak running diagonally across the photograph is a road.

BOOZE

You can get away with it for a time. But in time it will get you. No one who drinks is immune. Drink, and time will make you a sure candidate for the "has been" class.
 As a "wrecker" of health, hopes, ambitions and careers, alcohol has no equal. At the door of old John Barleycorn can be laid more unhappiness, degradation, disgrace and broken hearts than from any other cause.
 Don't let it get you. Call, phone or write for free booklet, sent in plain, sealed envelope, describing the Neal Treatment, which clears your system of all alcoholic poison, permanently removing all desire, craving or appetite for drink. It is guaranteed. You must be satisfied or we do not want your money.
