Berlin.—(By wireless to Sayville, N. Y.)—Empress Francis Joseph has accepted the resignation of Dr. Constantin Theodor Dumba, the Austrian ambassador to the United States, says a Vienna dispatch to the Overseas News Agency. The emperor thanked Dr. Dumba for his "excellent services," says the dispatch.
A movement has been started among the women of El Paso to bake the pies and cakes necessary for the 30,000 soldiers who are expected to be in El Paso Thanksgiving day. If the movement is successful it will relieve the cooks of the district of onerous jobs and reduce expenses considerably.

We Have Just One Price—\$15

Concentration is the keynote of this successful business. We do one thing and do it as good as we can—and better than the other fellow. That is why you buy \$25 values at Bond's for \$15.

Bond's Clothes Are Made in Our Own New York Factory

Store Open Every Saturday Evening

We specialize in one kind and quality of men's clothes; suits and overcoats of the same quality as manufacturers all over the country turn out for dealers to sell at \$25.

But we sell direct—and cut from the cost of merchandising, not from the cost of the merchandise!

Suits Topcoats
Raincoats Overcoats
Evening Clothes

Never More. **\$15** Never Less.

When it comes to out and out style, we say that Bond's \$15 Clothes compare favorably with clothes selling elsewhere for twice as much. As to quality,—all we ask is that you see Bond's Clothes and then judge for yourself. This we know: never again will you willingly pay a retailer \$25—you will buy Bond's Clothes and save \$10.

==Sobering Up

after a period of over-indulgence in drink is anything but a pleasant experience. Two to three weeks' time given to sanitarium treatment works a hardship on busy men of affairs.

Being harmless, effective, pleasant to take and administered in strict privacy by graduate nurses under a physician's direction, you leave in 3 day's time with a clear brain and physically fit to go about your business. Good business judgment dictates that the Neal Way be investigated.

For Preserving Fish.
A method for freezing fish, patented in Denmark by immersing them in a cold liquid, is claimed to preserve them in more perfect condition than air freezing, as the fish is not dried nor broken by ice crystals.

Good Reason.
"Marie, you'll never be able to drive that nail with a setron. For heaven's sakes use your head," admonished Mr. Stubbins. And then he wondered why she would not speak to him the rest of the day.—Fuch.

Increased cost of living hit Genesee county hard when supervisors were forced to make an agreement to pay the Detroit house of correction 70 cents a day for keeping prisoners instead of 50 cents as formerly.

One Dollar Winner.
Esther, aged seven, was listening to a conversation of her elders on the subject of sharks. "You can always know a man-eating shark," auntie said, "because he has one fin sticking out of the water." "Then," said Esther, "when you see two fins sticking out, does that mean it is a lady-eater?"

Weather Reform.
In this best of worlds all things are, of course, arranged for the very best; but as a hard-worked gardener, wearied with much watering of flowers, remarked one evening, he could not understand why all the rain that had to fall could not be made to come at night. "It would save us gardeners a world of trouble," he added plaintively, "and be much useful to the flowers and things."

Berlin.—(By wireless to Sayville).—Altogether 24,300 bags of mail from Germany and 16,820 bags destined of Germany were confiscated by the British and French authorities from December, 1915, to the end of September, 1916, says the Overseas News Agency. The news agency asserts that only a small part of the seized mail was afterwards redispached to its destination.

Like Father.
Music Teacher—"Your daughter is improving, but when she gets to the scales I have to watch her pretty closely." Mother—"That's just like her father. He made his money in the coal business."

Ironing Velvet.
Velvet must be ironed over the iron so as not to crush the pile. The best way is to get someone to hold a hot iron upwards while you draw the velvet backward and forward along the hot surface. Keep the velvet wet, stretched, and go over every piece carefully till the pile stands up well.

Generally Both.
The man who claims he never makes a mistake is either blind with egotism, or a liar.
