In many foreign countries, newly married couples live with their families until they are able to find an apartment -- and sometimes for their whole lives.

We Americans take for granted that we will move into an apartment or "first house" of our own from the moment we are married.

We should be aware that articles such as the one below wouldn't apply in many places throughout the world. If we keep this perspective then "Decorating Your First Home" is not only an adventure, but a privilege.

By VIRGINIA FRANKEL

Of all the types of people with whom I as a decorator work, newlyweds are the most enjoyable. They are usually overflowing with eagerness, energy, and enthusiasm, and many of my jobs for them have blossomed into lasting friendships.

NEWLYWEDS ARE MORE ADVENTUROUS than couples who have been married for some time. I was engaged by one couple who couldn't make their minds up about

a lighting fixture over the dining-room table.

While they were debating, the room took shape, with an Oriental rug, fine curtains on the windows, elegant antique furniture -- and a positively ghastly lighting fixture inherited from the previous tenants. I insisted they take it down.

"But we'll only have a bare bulb," they objected.

"I know," I said. "Maybe then you'll make up your minds about a new fixture." I knew from experience that if people let things ride too long, the decorating job will lose momentum and they'll end up using the unusable.

I was not going to make their dining room into a showplace only to have it marred by that thing!

So down it came, but my young friends turned the tables on me. Since they still couldn't come to an agreement on a new fixture, they'd live with the bare bulb hanging from a thick black wire over their cherrywood dining table.

They gave several exquisite dinners before we finally found a chandelier that we all liked and that was suitable. When I asked them how they explained that eyesore to

The best time to put in a lawn is fall! The best one to put in a lawn is the Lawn-A-Mat man!

From his successful experience on over one million lawns coast to coast, the Lawn-A-Mat man knows that Fall seeding is best because:

1. Fall is the seeding time for 15 of 22 seeded grasses including Kentucky Bluegrass and Fescues, the two best kind of lawn grasses.
2. Lawn seed sprouts fastest in cool weather, grows faster too. The Lawn-A-Mat man knows that grass is essentially a cool weather plant.

Fall is the time of year when the lawn's enemies, the hot sun, heat, bugs and weeds are on the wane. He agrees with experts who say that Fall is the best time to start a lawn you can be proud of, one that will probably require less expense than you are putting into your present lawn.

Just as Fall is the best time to put in a lawn, the Lawn-A-Mat man is the best man to put in that lawn. Lawn-A-Mat has put in more than one million lawns and has more lawn care professionals from coast to coast than any other service. Its Lawn-A-Mat seed and chemicals are the highest quality, equal to the best you can buy at most garden centers. This means that you get more for your money in the Fall. The Lawn-A-Mat man is offering you Fall Specials to save you even more.

He will do all the work and it will cost you no more than if you did it yourself. All you do is buy the high quality Lawn-A-Mat products and the work will be done free!

Take your choice of two Fall Specials or ask your Lawn-A-Mat man about the Annual Greenskeeper Program.
