

The best time to put in a lawn is fall! The best one to put in a lawn is the Lawn-A-Mat man!

From his successful experience on over one million lawns coast to coast, the Lawn-A-Mat man knows that Fall seeding is best because:

1. Fall is the seeding time for 15 of 22 seeded grasses including Kentucky Bluegrass and Fescues, the two best kind of lawn grasses.
2. Lawn seed sprouts fastest in cool weather, grows faster too. The Lawn-A-Mat man knows that grass is essentially a cool weather plant. Fall is the time of year when the lawn's enemies, the hot sun, heat, bugs and weeds are on the wane. He agrees with experts who say that Fall is the best time to start a lawn you can be proud of, one that will probably require less expense than you are putting into your present lawn.

Just as Fall is the best time to put in a lawn, the Lawn-A-Mat man is the best man to put in that lawn. Lawn-A-Mat has put in more than one million lawns and has more lawn care professionals from coast to coast than any other service. Its Lawn-A-Mat seed and chemicals are the highest quality, equal to the best you can buy at most garden centers. This means that you get more for your money in the Fall. The Lawn-A-Mat man is offering you Fall Specials to save you even more.

He will do all the work and it will cost you no more than if you did it yourself. All you do is buy the high quality Lawn-A-Magic® products and the work will be done free! Take your choice of two Fall Specials or ask your Lawn-A-Mat man about the Annual Greenskeeper Program.

*Experts from the U.S. Department of Agriculture say "Fall is the best time to start or renovate a lawn"

FALL SPECIAL FALL CONDITIONING

Desk Work Makes A Difference

Bills get paid faster, correspondence stays up-to-date and invitations go out on time when the right desk is on the scene.

The desk, originally developed as a writing box by craftsmen in ancient Egypt and China, is the key organizer in today's effort to keep the household running smoothly. Whether it's a streamlined writing table or a classic kneehole design,

the modern desk is a workhorse.

Selecting the correct desk is merely a matter of style preference and functional requirements. For the young couple looking for an apartment-scaled table that doubles as desk and dining spot, a modified Parsons table can be the answer. Approximately 34 inches by 54 inches should do the double duty. Even a budding architect would find ample spreadout space for blueprints and renderings.

Desks are now standard in the many space saving systems available in today's stores. Drop lids, borrowed from the traditional 18th century secretaries (which, incidentally, are reproduced in abundance today also) can be found in many storage systems. Often these "desks" double as bars when guests arrive.

The ubiquitous kneehole desk is interpreted in every size, shape and description, from corner pieces in systems to massive library pieces. Many of the most decorative desks harbor efficient compartments, including file drawers and drawers within their interiors.

To keep desks as efficient as they were designed to be, desk-top accessories should be kept to a minimum; good lighting made available and a comfortable desk chair added.

Kawasaki Has 18 '74 Models

LIVONIA

This year, motorcycle enthusiasts will have a selection of 18 models to choose from in the Kawasaki line at Pierre's Kawasaki, 30650 Plymouth Road, Livonia.

Frenchy Toutant, owner of the shop, said the new line offers the widest selection of engine sizes ever produced by any manufacturer.

The 1974 line will include the 75cc MT-1 trail bike, the 903cc Z-1 touring machine, five street and sport bikes ranging from 90cc - 750cc, and seven enduros used for street and off the road riding.

Included will be production models of motocross and motorcycles. Racing models in this line will be the KX-450, KX-250 and the KX-125.
