TREES FOR INSTANT SHADE

HAROLD THOMAS

For years, we have specialized in large "Instant Shade" trees in a wide range of varieties and sizes. All trees have unusual large balls of good earth, easily transplanted and selected for their beauty and hardiness. The right selection of the right tree is very important for year round interest and for cool comfortable shade now and years to come. Come see our selection early. Before the busy season gets fully underway.

The Green Thumb

By GEORGE ABRAHAM

Now's a good time to start plants in bottles, jugs, fruit jars, peanut jars, or what have you. This is called:

FOREST CITY

NOW... 4 GREAT HOME CENTERS IN MICHIGAN:

- Westland
- Livonia
- Southgate
- Roseville

"bottle gardening."

Don't throw away any kind of glass containers. Even the narrow mouth containers can be used for bottle gardening. Long tweezers can be used to insert plants into them. In fact, we have fashioned a looped "plant placer" out of a wire coat hanger. It lets plants down into narrow mouthed jugs with no problem at all.

Plant materials can be found in meadows, swamps or weeds now or in early winter. It's an easy way to bring the outdoors indoors.

Sprinkle some woods' soil in the bottom of the container and add a few bits of charcoal to keep the soil sweet.

You can add any kind of plant available, such as tiny evergreen seedlings, odd bits of bark, lichens, sticks, small flowering plants, mosses, and tiny moss-coated pieces of wood.
