

GIFT WRAP

DISTINCTIVE GIFT-WRAP to make even a small gift eye-catching...

Often a small Christmas present looks over-decorated when a patterned Christmas wrap is used.

To make a small gift eye-catching, select a solid color paper --red, green, gold, silver --your favorite. Then give the package a three-dimensional quality. For example, you can take some "Q-Tips" cotton swabs from the medicine chest and lay them out on the box. Glue them in place, add a star and a circle and you will have a distinctive package.

For another package, glue a three inch plastic foam circle to the box. Cover the circle with glue, then sprinkle gold glitter. When the glue dries, the glitter will sparkle. Then snap cotton swabs in half and insert them in the "gold" plastic foam. Then add colorful circles. (Note:glitter may be obtained in dime stores or wherever craft materials are sold.)
