Beginning Dec. 3rd Christmas Hours
Daily 9-5
Sunday 12-5 pm.

Come see the littlest Leica.

The new Leica CL.

Only Leica could have created the CL, a true take-it-anywhere camera with all the precision and performance of a Leica. And of all compact cameras, only the CL has Leica's 50 years of leadership in 35 mm photography behind it.

The CL is the smallest and lightest Leica ever made. It weighs just 17 1/2 oz. with standard lens and measures only 3 inches high, 4 1/4 inches wide and 1 1/4 inches deep. Yet it is the first compact camera to offer full-frame 35mm format with viewfinder-coupled interchangeable lenses and through-the-lens metering.

It is the first compact camera with interchangeable rangefinder-coupled lenses. Two lenses have been specially designed for the CL: a 40mm Summicron-C 1/2 and an exceptionally compact 50mm Elmar-C 1/4. And it will also accept most recent Leica M-series lenses.

Like the fine Leica system cameras, the compact CL will take a great picture. Unlike any other compact camera, the CL can also be a great investment. And happily, it is the Leica that may be owned for the smallest investment.
