A Chicken Fancier.

If he would have his hens look slick and their feathers smooth must give them a tonic and in Harvell's Condition Powders we have the best one made. Every ingredient has been chosen for its medicinal properties and there is absolutely no waste in the package, which is full weight. Obtainable everywhere at 25c per package. Sold by T. H. McGee.
J. F. Shear, Esq., Mich., writes:
I have used Harvell's Condition Powders for over ten years and have always found them just what my horses and cattle needed when out of sorts. They always bring back the appetite. My stock show the results. Since feeding Harvell's Condition Powders to my poultry they have not been troubled with cholera or rumpe and we get lots of eggs.

The pupils of the Nichols school will give an entertainment at the schoolhouse Wednesday evening, May 26. Admission to cents except to pupils of the school who will be admitted free. Ice cream and cake will be furnished free. Everybody invited.

REX

Rex

Arsenate of Lead

is not made to compete with the cheap Arsenate of Lead now being placed on the market, but is the very highest grade that is possible to make and is marketed entirely upon its merits.

The Rex Arsenate of Lead has many advantages over all other arsenical insecticides. It has a splendid advantage over Paris Green in that it remains in suspension when prepared for use for a longer time and because of its adhesiveness it will stick to the foliage for the longest possible time.

Foliage sprayed in the spring and analyzed in the fall showed arsenate yet present on trees sprayed in June; developing web-worms were killed off in September without further treatment.

From this the user will realize that it is not necessary to spray as often with Arsenate of Lead as it is with Paris Green and various other arsenical poisons.
