

4 Hines Dr. bike days set for '74 Saturdays

Bicyclists who enjoyed riding on Edward Hines Drive for a day last fall, when the road was closed to automobiles will have four more times this year to enjoy scenic rides.

State Rep. John Markes (D-Westland), who arranged

the first bike day in the park, has received approval for four more bike days on May 4, June 1, Sept. 7 and Oct. 5. The drive will be closed from Ford Road to Haggerty Rd. for any motor vehicles, leaving the parkway open for bicyclists and picnics. Markes said the dates are easy to

remember because they are the first Saturdays in those months.

He said he couldn't get permission for dates in July and August from the Wayne County Road Commission because those months are the prime picnic times for the parkway.

Fire has good side Auto layoffs start taking toll in area

CLARENCEVILLE Probably the most heartening thing to emerge from the aftermath of the tragic Clarenceville Junior High School library fire is the spirit of cooperation from the community, school officials say.

Last week, the school district added another name to

the list of people who want to help. The latest offer came from the library staff at nearby Carl Sandburg branch library on Seven Mile Rd. in Livonia.

The staff has offered to assist the school in holding a series of special visits to help meet the library needs of the students.

According to De Wayne Nutter, Clarenceville High principal, seventh and eighth graders will be taken to the library today (Wednesday) and tomorrow by bus. The visits will last one class period. A visit on Friday is also being planned to catch all the students who couldn't go during the regular class period.

He said that the Sandburg staff "has more than welcomed us" and offered to help in any way possible.

Library officials, on the other hand, say they are more than happy to cooperate because it gives them a chance to make students aware of the facility and its various services at a key point in a student's academic life.

"We're sorry, though, that it took a fire to bring us together," said one library worker.

However, Observerland plants of General Motors and Ford had generally escaped any major, lasting blows of indefinite layoffs until Ford included the 600 transmission plant workers in a national

cutback in General Motors production have not materially affected the five GM plants in Observerland in the area of indefinite layoffs although both Fisher Body and Chevrolet spring and bumper in Livonia have been affected by short-term employee cutbacks, all previously announced.
