Larger apartment mailboxes ready

New and remodeled apartment buildings will soon be equipped with larger mailboxes. Postal officials say the larger boxes will benefit customers by allowing letter carriers to place letter-size mail volume, as well as bulky and oversized mail in customers' boxes easier and without damage.

They will also help to eliminate the need to leave mail outside the boxes or return it to the post office. Manufacturers for apartment mailboxes have been notified of the modifications in size. It is expected that the larger boxes will be in stock by early 1975.

TO THE GAS CUSTOMERS OF CONSUMERS POWER COMPANY

NOTICE OF HEARING GAS ALLOCATION PROCEDURE

Case No. U-3990

On January 15, 1974, Consumers Power Company filed with the Michigan Public Service Commission a Supplement to Application in Case No. U-3990, which requested that the Commission amend paragraph "C" of its Order dated November 26, 1971, in Case No. U-3990. Consumers Power Company states in its Supplement to Application that there exists in the State of Michigan, and elsewhere throughout the United States, a severe gas supply shortage, which shortage has made it necessary that suppliers of natural gas, including Applicant's pipeline suppliers, substantially curtail the deliveries of natural gas to their customers. Consumers Power Company also states, in its Supplement to Application, that, in response to this shortage of natural gas, the Commission granted Applicant authority to implement a gas allocation procedure. One of the stated purposes of the currently-effective gas allocation procedure was to allocate the hardship then being experienced by certain commercial and industrial customers. This hardship existed because prior to the effective date of such gas allocation procedure, gas usage of commercial and industrial customers was restricted to "base year allocations." Thus, weather-related increases in gas consumption and increases in gas consumption arising from increased usage of existing manufacturing or processing equipment was precluded. Accordingly, Applicant proposed, in its authority to create the currently-effective gas allocation procedure, to ameliorate this situation by making sufficient gas available, independent of the proposed gas allocation procedure, to permit commercial and industrial customers then being served (other than those being supplied gas from steam generating equipment, electric generating equipment, or kilns rated at more than 50,000 cubic feet of gas per hour) to "fully utilize their existing equipment" presently utilizing gas as a primary fuel. In response to Applicant's proposal, the Commission authorized Applicant, in paragraph "C" of its Order dated November 26, 1971, in Case No. U-3990, to:

using natural gas as a primary fuel, except that Consumers Power Company shall restrict customers who are now being supplied gas for steam generating equipment, electric generating equipment, and kilns rated at more than 50,000 cubic feet of gas per hour, to the annual Mcf capacity reservation contained in their present gas service contracts or, if there is no annual capacity reservation in their contracts, to the base year allocation or the commitment made by Consumers Power Company in accordance with the gas sales restrictions authorized by this Commission in Case No. U-3778, and (2) existing space heating equipment, provided there is no expansion or addition in the area to be heated. If an existing customer makes additions to the area being served by existing space heating equipment, through additions to the existing building or new buildings, such customer shall be limited to an annual allocation of gas consistent with the customer's previous gas usage.

The Supplement to Application in Case No. U-3990, together with the Commission's initial order thereon, is available for public inspection at the offices of the Michigan Public Service Commission, Law Building, Lansing, Michigan 48913, and at each local office of Consumers Power Company.

The Commission has scheduled hearings on the Supplement to Application, and it has ordered that Notice be given that:

A. A public hearing will be held at 9:30 A.M. on April 19, 1974 in the offices of the Commission in the Law Building, Lansing, Michigan 48913, for purposes of determining whether, or in what form, ordering paragraph "C" of the Commission's Order in Case No. U-3990 should be amended.

B. Any parties seeking to intervene in these proceedings, in accordance with Rule 11 of the Commission's Rules of Practice and Procedure, shall file with the Commission at least five (5) days prior to April 19, 1974, an original and six (6) conformed copies of the Petition to Intervene, together with Proof of Service, upon Consumers Power Company.

C. THE PROPOSED AMENDMENT TO ORDERING PARAGRAPH "C" OF THE COMMISSION'S ORDER IN CASE NO. U-3990 DESCRIBED IN THIS NOTICE IS IN THE FORM REQUESTED BY CONSUMERS POWER COMPANY. THE MICHIGAN PUBLIC SERVICE COMMISSION MAY EITHER AUTHORIZE ITS ADOPTION IN THE FORM REQUESTED, DENY ITS ADOPTION, OR MAY ORDER THE ADOPTION OF A NEW ORDERING PARAGRAPH "C" IN A FORM DIFFERENT FROM THAT DESCRIBED HEREIN.

Jurisdiction of the Commission in this Order is pursuant to Act 300, Public Acts of 1909, as amended (MCLA 462.2); Act 419, Public Acts of 1919, as amended (MCLA 460.51); Act 3, Public Acts of 1939, as amended (MCLA 460.1); Act 9, Public Acts of 1929, as amended (MCLA 483.101); Act 306, Public Acts of 1969, as amended (MCLA 24.201); and the Commission's Rules of Practice and Procedure, 1954 Administrative Code, Supplement No. 54 R 460.11.

"...make available to its present customers (other than those now being supplied gas for steam generating equipment, electric generating equipment, and kilns rated at more than 50,000-cubic feet of gas per hour) sufficient gas to fully utilize existing equipment which is presently utilizing gas as a primary fuel..."

In recent months, Applicant has been confronted with the claim on several occasions—that under the quoted language from paragraph "C" of the November 26, 1971 Order, existing customers may utilize existing equipment to heat new buildings or building additions. The Applicant, uniformly, has denied this claim as being inconsistent with the intent of the gas allocation procedure in general and the intent of paragraph "C" of the November 26, 1971 Order, in particular. Accordingly, Applicant proposes that the Commission amend its Order dated November 26, 1971, in Case No. U-3990, so as to make clear that the use by Applicant's existing customers of existing equipment to heat new buildings, or building additions is precluded, unless such use is restricted to an annual allocation of gas consistent with the customer's previous gas usage.

As set forth in the proposed paragraph "C," Consumers Power Company proposes that ordering paragraph "C" read as follows:

"C. Consumers Power Company is hereby authorized, independent of the gas allocation procedure herein approved, to make available to its present customers sufficient gas to fully utilize (1) existing manufacturing and commercial or industrial processing equipment which is presently

CITY OF FARMINGTON HILLS PLANNING COMMISSION

Containing 15,736.0653 sq. ft., or 355.2956 acres. Subject to easements of record. Except that part taken, used, or needed for road purposes.

The property lies on the north side of Twelve Mile Road, east and west of Drake Road.

The above mentioned request would rezone the above mentioned property from its present RA-1, One-Family Residential District classification, to RP-1, Planned Residential District classification. The proponent in this matter is William J. Pulte, who seeks this rezoning in order to construct a mixed-type residential development on the property.

Any person who is interested is invited to participate in the discussion of the proposed zoning change. Blueprints, maps and zoning text may be observed at the Farmington Hills City Hall on any business day between 8:30 a.m. and 4:00 p.m.
