Around Town

Mrs. Charles Ely has been quipped.
Henry Sallow's children have been ill.
Thomas Russell is very badly poisoned.

Mrs. Sadie West of Chicago, is visiting Mrs. Mary Osmus.

Mrs. J. A. Miller visited her sister at Birmingham Friday.

Mr. and Mrs. Clyde Nichols of Detroit, are visiting in town.

Cook & Co. have a nice line of fancy crockery and glassware.

Mrs. John Mahaney and daughter, Mabel, are on the sick list.

Art linen and all kinds of embroidery silks and floss at Miss Ike's.

Mrs. Ed. Leach of Plymouth, was a recent visitor at E. C. Grace's.

The Juniors cross bats with the strong Redford team Saturday, June 12.

Mildred and Dale Adams are spending some time at the home of W. Irish.

Born to Mr. and Mrs. Wm. Pauline, Sunday, June 6, an eight pound boy.

Mr. and Mrs. Ammon Brown of Plymouth, spent Sunday at D. L. Dickerson's.

Dr. E. F. Holcomb attended the Knight Templar convocation in Detroit this week.

Miss Emma Sherman, who had been visiting in town, returned to Detroit Monday.

Mrs. J. F. Goodrich and daughter, Cassie, were in Detroit last week Thursday.

Mr. and Mrs. Sherman Walters of Pontiac, are visiting relatives in town this week.

Sidney Green of Mystic, Iowa, visited his sister, Mrs. Lucinda Webster, over Sunday.

Dr. Lee S. McColester will preach in the Universalist church June 20, at 3:00 p. m.

Miss Lillie Hallett of North Farmington, spent Sunday with Miss Gertrude Hamlen.

Mr. and Mrs. Charles Durant and children spent part of last week with relatives here.

Edward Tighe of Detroit, visited his uncle at the Methodist parsonage last Friday and Saturday.

Mrs. Clorine Smith of Rockwood spent part of last week with Mr. and Mrs. George Hendryx.

Chauncey Arnold and Frank Joslin of Williamston, visited their uncle, Wm. Van Alstyne, Sunday.

Mrs. Geo. Hake of Livonia, and Mrs. Hannah Moore of Pontiac, spent Tuesday at Jerome Adams'.

Mr. and Mrs. A. H. Phelps departed last week Thursday for a visit with relatives in New York state.

Mr. and Mrs. Alfred Langdon and Harry Dandison of Orchard Lake, and Miss Lena Sheraton of Pontiac, spent Sunday at John Hamlen's.

Cabbage and tomato plants, asters, scarlet sage or salvia, and pansies for sale. Inquire of John Mahaney.

Eighty couples attended the dance given at the Grace House last Friday evening. An enjoyable time is reported. Another party will be given July 2.

The Duncan M. Ward Sunday-school will observe Children's day next Sunday afternoon at three o'clock local time. All friends are cordially invited to attend.

Two hundred and fifty students of the Detroit Polish seminary went to Orchard Lake to inspect their new home Wednesday. Instructors were in charge of the students, and a picnic dinner was enjoyed.

The Children's day exercises will be held in the Methodist church next Sunday evening at seven o'clock standard time. On account of the exercises there will be no previous meeting of the Epworth League next Sunday evening.

E. H. Purse and Mrs. Margaret Benner of Detroit, spent Sunday at J. F. Goodrich's.

Theodore Grace of Detroit, and Miss Ella Green of Pontiac, were Sunday guests at E. C. Grace's.

Dr. and Mrs. E. F. Holcomb and son, Frazer, spent Wednesday evening at Dr. S. D. Holcomb's in Redford.

Farmington ball team went over to Novi last Saturday afternoon and played a game with Novi team winning the game by a score of 17 to 3.

I would be pleased to see my Farmington friends at the Economy Shoe Co.'s store, 52 Michigan Ave., Detroit, Mich.

FRANK MOORE.

The regular monthly meeting of the official board of the Methodist church will be held at the church next Tuesday afternoon at two o'clock. Dr. Sweet is expected to be present to hold the third quarterly conference.

The North Farmington Cemetery Auxiliary will meet with Mrs. Frank Bachelor in West Farmington on Tuesday, June 15, for supper. A full attendance is desired as the ladies wish to dispose of the quilt.

The town is supposed to be dry, but three village officers were seen celebrating Decoration day hanging Old Glory with the aid of a fish pole and clothes line. Long may she wave and may the clothes line hold until their term of office expires is the ardent wish of the trio.

The promotion exercises of the Farmington high school will be held June 23, and the commencement exercises June 25. The class consists of Gladys Smith and Wm. Smith. A fine program has arranged for the occasion. Patrick H. Kelly, lieutenant governor, will deliver the address at the commencement exercises and Gov. Fred M. Warner will present the diplomas.

Miss Mabel Kennedy closed her second year of school in the Johnson district June 1st with a program and supper at the home of George Hendryx. Each pupil was presented with a pretty souvenir and photo of their teacher. The program and supper were much enjoyed by many friends and parents of the children. Miss Kennedy received a number of gifts from her pupils as a token of regard and esteem.

The entertainment given by the Ladies Literary club for the benefit of the park and cemetery association funds was a gratifying success. The ladies wish to thank Mrs. Edna Weaver for her valued assistance and the other ladies who so kindly gave time and talent, also the public who so generously patronized them. The net proceeds were \$44.35, of which one-third is donated to the park fund and two-thirds to the cemetery association fund.

Clarenceville.

Mrs. Pulling of Detroit, called on her old neighbors here Saturday.

Miss Alva Geister spent part of last week with Mrs. Brownie Cook.

Mrs. Brownie Cook called on Mrs. Carpenter Sunday.

Mary Cox was a Redford visitor Monday.

Mrs. McGaffney of Redford, visited her aunt, Mrs. John Grace, Thursday.

Misses Laura and Fannie Gray visited their cousins in Detroit one day last week.

Midsummer millinery, flowers, ribbons, etc., at Miss Ike's.

Oil and Gasoline Stoves at Cook & Co.'s.

Potato Blight Can Be Prevented.

The potato crop is often cut short and sometimes entirely destroyed by the attack of blight. There are really two distinct fungous diseases to which this term is applied. One of them attacks the early varieties and, beginning at the margins of the leaves causes them to dry up. It is especially troublesome in dry seasons, and when the leaves have been eaten by flea beetles or burned with Paris green.

The other form which is known as late blight seldom shows before August and hence does little or no harm to early potatoes. This disease is most troublesome in warm, wet seasons, and may not appear at all in dry summers.

When the conditions are favorable for its development, it may apparently "blast" the tops in a single night, although really it has been at work in the tissues for some days. The spores are soon formed and falling upon the ground may be carried down to the tubers by rain and, if the weather continues favorable for their development, the tubers will be attacked and the rot may be serious enough to cause the loss of the entire crop. Even though the attack is confined to the tops, if they are destroyed before the tubers have reached their size, the yield will be materially reduced.

The early blight can be easily controlled by using Bordeaux mixture when spraying for the potato beetles, and the one or two sprayings usually required to control the insects will suffice to protect the plants from this form of blight. As it is the late blight that is most to be feared, especial attention should be given to controlling it.

While this disease can also be prevented by the use of Bordeaux mixture, the difficulty is increased by the fact that it is most troublesome in wet seasons, when it may seem almost impossible to get the spraying done between showers and when the spray is washed off.

The one thing to have in mind is that in a wet season, it is imperative that the tops are kept covered with the Bordeaux mixture from the time they are eight inches high until the tubers are practically grown. If this is done there can be no blight or rot.

Unless the late varieties are planted before June, and one to three weeks later than this is preferable, it is seldom that spraying is required before the first of August. Even in dry seasons it will pay to spray at that time and again ten days or two weeks later, especially as, if the weather turns wet later on, it may not be possible to check the disease if the early sprayings have been omitted. If the weather in August is favorable for the blight, the treatment should be kept up until four or five applications have been made. The whole secret of success is in spraying at the right time and doing it thoroughly. Care should also be taken to dilute the copper sulphate before adding the lime and the latter should of course be carefully strained.

In making the Bordeaux use four pounds of copper sulphate and the same amount of lime in 50 gallons of water. This will be less likely to clog the nozzles than when an excess of lime is used and although the use of five or six pounds of lime is desirable for fruit trees, there is less occasion for it when spraying potatoes or other crops with fixed nozzles.

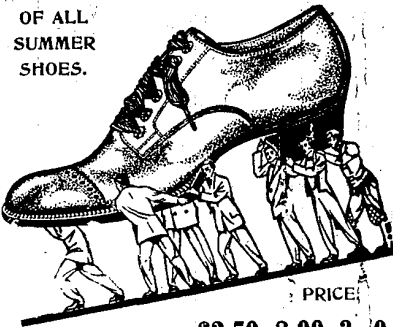

The use of arsenate of lead for beetles in place of Paris green is advisable. One and one-half pounds contains as much arsenic as eight ounces of Paris green and will cost no more. It has the advantage of not injuring the foliage and it is also very adhesive, so that it is less likely to wash off and fewer applications will be necessary.

While the above amount will answer for 50 gallons of water or Bordeaux mixture, if applied before the larvae appear, it will be better to use two or three pounds if they are very numerous and nearly grown.
