

A smashing fishbowl terrarium

Terrarium gardens popular

Nature buffs can enjoy gardens in their homes all year round. Terrariums or "glass gardens" are excellent natural decorations and a great way to stimulate a child's interest in the environment.

They're also a great education in plant life.

Terrarium containers can be purchased in various shapes and sizes. Among containers suitable for indoor gardens are; fish bowls, brandy snifters, crystal goblets, glass teapots, decanters, battery jars, aquariums and other large glass jars.

Two to three plants are sufficient for an average sized (fish bowl) terrarium. Plants can be either tropical, woodland or cactus.

Nifty Weather MachineTM Headquarters

Back about 1893, when Dave Lennox made his first furnace, relief from summer heat was a hunk of ice and a patch of shade. There have been some changes made. Now you'll find the Lennox name on nifty weather machines that cool and clean the air and control moisture in homes and buildings. And these weather machines are designed so that even if you aren't lucky enough to have a Lennox furnace, you can still add Lennox central air conditioning, air cleaning and moisture control to nearly any forced air system.

That's a relief, for sure. Get out from under the weather with a Lennox nifty weather machine.
