

SPRING SALE

Agrico®

This is the one for me. Put Agrico Crabgrass Preventer with Grass Food down before crabgrass emerges. It'll never come up.

And the Grass Food feeds your lawn a balanced nitrogen diet that's also iron-rich, something it needs to be greener and thicker. Plus you get these savings.

*Spring morning marvel . . .
Lovely nameless little hill
On a sea of mist.*

Ah so, tranquility

Take time out to visit a Tranquil Garden, an exhibition of Japanese Bonsai (pronounced "bone-sigh"), which will be presented by The Four Seasons Bonsai Club of Oakland County during the week of May 6-12 in the Pontiac Mall. Bonsai is a potted plant that is also a tree. The tree has been dwarfed by special methods of culture. Bonsai is an art which originated in China around 1300 and later spread to Japan. You can see about 100 Bonsais at the Pontiac Mall display.
