### The Home Paper.

With all due modesty we believe the home paper is the most important institution in any town. It is the medium through which the town speaks to the outside world and is the means of communication between the people of the town and vicinity. Long ago, under inspiration, it was written, "No man liveth unto himself," and this truth was never more apparent than it is today. No man can retire from activity and live. He must know what is going on about him, and the world must know what he is doing. The use of the newspapers is the best plan by which this is carried on.—Oxford (O.) News.

The young man who is poor because he has no bank account, little understands the value of God's free gift of health and strength, little appreciates the fact that the brightest and best of the country are self made and come to the notice of the world from just such beginnings. Not by idly moaning that they are poor, but by going carefully to work, perfecting themselves in their chosen pursuits and becoming so useful to those about them that their services are always in demand, whether it be on the platform, in the shop or the kitchen for all are honorable alike.

Make up your mind that whatever you may have done in the past you will in the future wear your clouds inside out, and show the lining. We all have clouds, but that's no reason why we should draw the attention of the world to them. It is the brave cheerful soldiers who inspire the other. So if you can't get what you like, determine to like what you have or at all events to make the best of it and go on your way bravely, without complaining.

### Summer at Bay View.

The rise of the summer city of Bay View in Northern Michigan has long attracted much attention. It is town of hundreds of summer homes and hotels in the groves by the shore of Lake Michigan; the seat of an assembly and summer university of great reputation and draw people from all parts of the land. It combines the advantages Ocean Grove and Chautauqua, and is one of the most beautiful spots in the world. A measure of its popularity are the one hundred and sixteen through and local passenger trains which arrive daily from the south, besides all the lake

steamers. It is noted for its great variety. There, recreations are organized and promoted, and a \$12,000 swimming pool and bowling are now building. Much is done for the children and this year a summer school of domestic arts and science, in charge of women of the highest reputation; also a bible conference conducted by Dr. W. F. Sheridan of Kansas City, in which participate conspicuous church leaders, governors and judges, are among the well featured. All the summer announcements are out and fill 48 beautifully illustrated pages in the Bay View Magazine for May. If you write J. M. Hall, Boston Boulevard, Detroit, Mich., he will send you a copy.
