With a **SUN FUN POOL**
all you add is water!

For years people have been saying, "Wouldn't it be wonderful to swim all year, not just when the sun shines and it's in the 80s!"

But since no one had found a way to guarantee 365 warm, sunny days a year, the only solution was to put the pool inside a building. However, swimming indoors just wasn't the same as swimming in the free, open, out-of-doors.

Even if the building had sliding doors (which could be opened only in warm weather), the conventional roof-building materials kept out that one ingredient that "makes" swimming -- **SUNSHINE**

Now there's a structure that lets you swim out of doors in the summer, and just like out of doors in the winter. It's the Sun/Fun Pool Enclosure. The Sun/Fun features materials that let natural daylight in the pool area, a "convertible" roof permitting instantaneous opening and closing of the enclosure, and construction which is aesthetically pleasing. No wonder the Sun/Fun has been called "the greatest thing in swimming since pools!"

We think you'll agree that -- until someone comes up with a way to guarantee 365 warm, sunny days a year -- the Sun/Fun Pool Enclosure is THE way to assure yourself of year-round swimming enjoyment!

Remember, a Sun/Fun Pool Enclosure
ADDS beauty to your Pool, VALUE to your home
and **YEAR-ROUND SWIMMING** for you and your family.

Call, write or visit the Professional Team at SUN FUN POOLS, who give you "Guaranteed Weather, 365 Days a Year."
