Thomased eight different stocks. The properties of the past two months, I've ray related to the properties of the proper

those named in 1975. Chrysler has no announced new small cars, but has been adept lat getting good sales out of the Duster, Dart, Sprint and Valiant models. American Motors is already in good shape.

At their current prices auto stocks would still be a good buy even if earnings declined 50% in "4 from "13.

Q. Price-earnings ratios have been going down for a some time and are now at all-time lows Don't you think a new era has arrived and that stocks will tend to sell at low price-earnings ratios for all time?

A. I received a lot of questions of

low price-earnings ratios for all Afgure public library probably time?

A. I received a lot of questions of felt hard the NNESTRENT CLIBE the same type in 1961, but at that the NNESTRENT CLIBE dustrials was above 20, and people the best.
