## PRESENTS

### ARCHITECTURAL WALL I by Directional

Versatility is the key to this collection. By stacking, bunching, and combining pieces a unique look can be created to suit growing and changing family needs and life styles. Among these eight units are a desk/dining cabinet, storage units, chests and a musical cabinet. Attractive chrome pulls add elegance and a clean appearance to the group. All units are 30" wide and 15½" deep which is perfect for stereo components.

The remarkably durable Discotite, Vinyl Laminate finish used in Architectural Wall I is superior to that of most hardwoods. Extremely practical for today's informal mode of living, it is scratch and stain resistant and easy to maintain. Available in all white, white w/yellow, orange, pink, or purple fronts.

Sale Prices start at \$71.95

Woodward at Square Lake Rd.
