

Suede covers the seating pieces

Super contemporary and clean

# Schwark Furniture

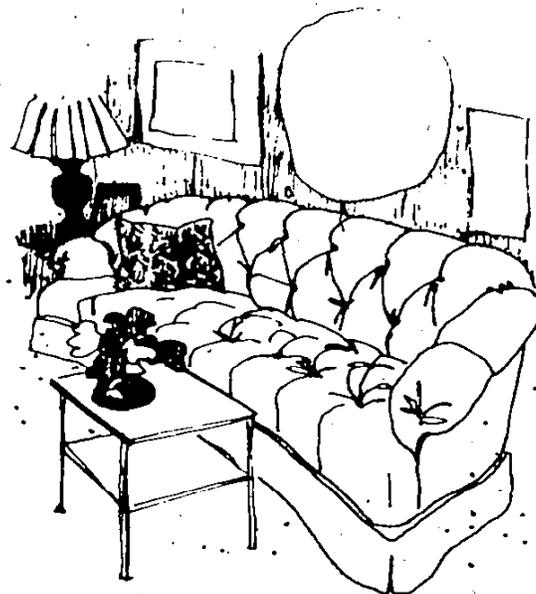

*At Schwark's  
we put a lot of thought  
into your home  
if you just ask us,  
that is!*

We like to have you think of us, not just as a "furniture store" — But instead, as the place where friendly, furniture-wise people give you all sorts of help and information to bring your beautiful home plans to life.

You're planning to refurbish a bit? Adding a piece here and there? You may need help correlating sizes and finishes of new pieces with your present possessions. Just ask, we'll help. Even come to your home to measure, bring color samples, etc. Or you're starting from scratch? New home and nothing in it? That's a big job that you'll enjoy hugely. But you've got to know just where to start in your planning. And your budget's a constant monitor. We'll help, just ask. We've been helping plan tri-county homes for years . . . Some of the prettiest!

We'll help you arrange a convenient plan of payments, too. So you can have what you want now, and be living with it, enjoying it from this day forward.

If you're planning to furnish or refurbish, call on us for help. We'll put a lot of thought into it. And with our best combined efforts, the result is sure to please you thoroughly.

Van Dyke at 23 Mile  
Utica 731-3400
