An ever-clean, simple bath

## Born yesteryear.

**Circa 1815. (Center).** The English Regency period strongly influences this lamp, using white china and finishes of ormolu and rich dore. A lasting look in a lasting lamp, it stands 40" tall.

**Circa 1695. (Left).** Here's an early Renaissance lamp of Irish extraction, its beautifully handled turnings enhanced by a stained and mottled old brass finish. Another new lamp with a heart of old. It stands 38½" tall.

**Circa 1790. (Right).** We give Louis XVI credit for this imposing lamp reminiscent of designs popular during his reign. It combines ebon and ormolu finish, with imported, hand-polished faceted crystal. Standing 37½", it speaks eloquently of Stiffel's regard for history.

These are but three. There are more. Each with a strong sense of history and a great love of light.
