MORE THAN JUST
A WINDOW BLIND

LEVOLOR
RIVIERA

Functional—of course—because nothing beats a blind for light control and privacy. Now new beauty has been added. Slats are slimmed down to less than one inch. You tilt them with a crystal clear wand. Tapes are gone. Best of all choose from dozens of great colors or shimmering metallics. We make up Levolor Rivieras in solid colors or striped to custom fit your windows.

Because we sell only blinds — you pay less!

If Ponce de Leon
had one of our lights,
he might have found
his Fountain of Youth.

Which brings us to the importance of good lighting. All year 'round — not just when you're sitting there reading a newspaper special on the home.

Designs with Light is the 365-day specialist in contemporary lighting. We carry only the finest of lines (like George Kovacs and Koch & Lowy) at prices you can afford. See for yourself.
