

## A sweet taste of victory

It might be the beginning of the basketball season for the guys, but for the girls, it will soon come to a close.

But Farmington's Our Lady of Mercy High is in no great hurry to end the season.

Anyways, not just yet.

The high-spirited girls team were the district winners of the state-wide tournament held last week at Southfield High School.

The Marlins victories over Southfield-Lathrup and Berkley gives the feminine dribblers the opportunity to advance to the regional tournament beginning next Tuesday, at Southfield High.

And if they win the regionals, there might even be a state championship in store.

So, Mercy High is in no hurry to end the season. At least not just yet.

Not that the end appears to be in sight. The team walloped Berkley 63-35 last Saturday, bringing its season's total to 14-2 overall, an impressive record by anyone's account.

The team will shortly face the winner of the Milford High district. No one on the team intends to make that the last game of the season.
