Steel Strike Nears; Wage Talks Fail

PITTSBURGH -- The chief negotiators for 11 major steel companies and the United Steelworkers the past weekend said they had been unable to reach a "basis for settlement" of their wage contract dispute covering 400,000 workers in the basic steel industry in the United States and Canada.

Although their failure to date increased the threat of a strike at midnight today, when a current three-year contract expires, there was no immediate threat to the economy, Bethlehem Steel Corp. al-

riots as protests against real

grievances; one-third empha-

sized what they called their

criminal or conspiratorial

character, and the rest viewed

them in combinations of those

two points.

WASHINGTON -- The first in

a series of postal service em-

backs, scheduled to take effect

Saturday, were postponed for a

week while Congress considers

amending the Post Office De-

partment from federal man-

power reductions.

Postmaster General W. Mar-

ready has hurloughed 4,800 of

the 5,200 coal miners it em-

ploys in Pennsylvania, Ken-

tucky and West Virginia. The

Penn Central has posted layoff

notices, but a 15,000-member

union has threatened to strike

unless they are pulled down.

If a strike lasted a month

or longer, assuming the John-

son administration did not in-

volve the Taft-Hartley Act, the

pitch would be felt widely.

CLEVELAND -- Mayor Carl

B. Stokes, saying the crisis

had passed, Saturday withdrew

all National Guard troops from

the east side, which was torn

by violence that left 10 persons

dead.

Stokes said 1,200 National

Guard troops left at 7 a.m.

and will not return. He said

1,500 other troops would "re-

main here on standby basis"

but were expected to be with-

drawn from the city if the sit-

uation remained calm.

Fred (Ahmed) Evans, mem-

ber of the Black Panther Party

who claimed he instigated the

disorder, pleaded not guilty at

a preliminary hearing on first

degree murder charges in con-

nection with the slaying of the

three policemen. Evans' case

was continued to Aug. 7.

PHOENIX -- Barry Gold-

water, who won the Republican

presidential nomination four

years ago, is hoping his in-

volvement in this year's national

convention will be limited to

one brief speech.

Goldwater is scheduled to

fly to Miami Beach on Aug. 5,

shake hands with a few friends,

give a 20-minute speech at the

convention and then fly im-

mediately back to Arizona.

In explaining his desire to

remain in Miami as short a

time as possible, he said, "I've

done all I can for Dick Nixon,

I'm not a delegate and I think

Nixon has it won. He will go

on the first ballot."

He added, "There are no

votes for me in Florida."

WASHINGTON -- Riots are

justified by most black persons,

but they are not recommended.

This was one of the statements

in three surveys released Sun-

day by the National Advisory

Commission on Civil Disor-

ders, headed by former Gov-

ernor of Illinois Otto Kerner.

The surveys stated:

The Negro mass is far less

revolutionary in its outlook than

its more militant spokesmen...

The great majority do not pro-

pose to withdraw from America;

they want equal status in it.

About 18 per cent of the Negro

residents in the 1967 riot areas,

on the average, participated in

the disorders. Of the rioters,

one per cent were from out of

state, four per cent from out-

side the city and 95 per cent

from the city.

Roughly a third of white popu-

lation in the 15 cities viewed

as the guidelines were

promulgated and it placed em-

phasis on the portion dealing

with contraposition.

MEMPHIS -- Arthur J.

Hanes, James Earl Ray's de-

fense lawyer, told newsmen that

an international Communist

conspiracy was involved in the

slaying of Dr. Martin Luther

King Jr.

Hanes said that immediately

after Dr. King was assassinated

April 4, U.S. Atty. Gen. Ram-

sey Clark called the slaying a

one-man job. Ray is charged

with murder in the death.

"But gentlemen," Hanes

said, "I am here to tell you

right now that it is my belief

the attorney general is 100 per

cent wrong. There is a giant

conspiracy here and my client

is being used by the conspir-

acy."

WASHINGTON -- A federal

complaint entered this past

week against six suburban de-

velopers in Louisiana was the

first move in what Housing and

Urban Development Secretary

Robert C. Weaver said will be

"vigorous" enforcement of the

"tough" fair housing require-

ments of the Civil Rights Act

of 1968.
