- 7.75-cu. in., 3-HP. engine gives faster starts.
- Guaranteed CRAFTSMAN® quality throughout.
- Convenient blade and throttle control on handle.

This Craftsman self-propelled mower is tops for really easy starting because the pulling effort on the recoil starter is reduced 30% by low-compression head, and the fuel gets into the engine fast thanks to the hydraulic fuel primer . . . more positive than choking system. The height-of-cut adjustment on roller AND wheels gives fine lawns a more level, smoother cut. Just flip and lock fingertip controls to change cut height from 1/2 to 1 3/4 inches. And it's a snap to run . . . just lift the handle to start moving . . . lower to stop. The positive chain drive gives you power when you need it. Grass catcher included.
