

Variety spices center classes

Silk screening is a new entry on Farmington Community Center's winter schedule of classes. This colorful art has been called the answer to a poster maker's prayer and can be used for greeting cards, stationery, calendars, fabrics or just for art's sake.

It will be taught by Barbara Wolff for eight Thursdays at 7:30 p.m. beginning Jan. 30.

Jewelry making, another newcomer, will enable beginners to learn techniques of working with copper, bronze, silver, gold, wood, leather and endless combinations thereof. Stone setting is included in the instruction, and the end products are completely individual.

The class will be taught by Chris Hentz for 10 Wednesdays at 7:30 p.m. beginning Jan. 22.

Copper enameling can also be used for the creation of jewelry items and will be taught by Barbara Freedman for six Tuesdays at 7 p.m. beginning Jan. 28. Her instruction will cover basic techniques such as stencil, paint on, graffiti, sting, lumps and threads. These methods may be applied to ash trays, trinket boxes and plaques as well.

The Art of Lighting & Home Decor
by Betty Langer

Small touches make the difference in decorating. A room goes from flat to exciting when the lighting is just what it needs. Accessories that just might keep the little table and, of course, the pictures on the wall, bring life into the big furnished space in the room. So, the importance of the people who make a room their own is great. Betty Langer, author of "Lighting & Home Decor," is the expert on this subject. In the weeks to follow, she will make a series of talks on lighting, color and home decor.

Lighting fixtures are probably the most important accessories in any room. In **CUSTOM GALLERY AND LIGHTING STUDIOS**, 2120 Telegraph, between 9 & 10 Mile Road, Southfield, we can help you choose the right lamp, color, fixture and wall light to give you the correct lighting effects while serving as a decorative unit in your room. We are lighting repair specialists and carry a large inventory of replacement parts for lamps. We serve the entire Detroit and suburban area and we will be happy to help you with your lighting problems. Call us today at 462-0900.

Decorating Tip: Large pictorial maps are an inexpensive decoration for your den or TV room. Use colored pin markers to point out places you've been, or want to see.

MOULAGE LENDS itself to decoration of boxes, containers, and wall plaques. It is a combination of decoupage and has relief.

It will be taught by Mary Tomala Tuesdays at 9:30 a.m. for five sessions beginning Jan. 21.

Mrs. Tomala will also have a class in vue d'optique, sophisticated paper tote with an entirely new flavor. It will consist of five sessions beginning Thursday, Jan. 21, at 9:30 a.m.

For those who wish to research their family tree, genealogy will be offered for eight sessions beginning Thursday, Jan. 23, at 9:30 a.m. Rosina Raymond, president of the Detroit Society for Genealogical Research, will conduct this pursuit of backgrounds.

Peggy Freeman is returning to sewing to the class roster this season. Her class, beginning Jan. 20, and meeting Mondays or Wednesdays, will include the newest techniques for sewing knit fabrics. Very basic instruction will give teens a painless introduction to sewing know-how. For those with some prior knowledge, the Wednesday class will carry them forward.
