Q. I read in the paper about the ress. If the institution makes its purlarge purchases and sales of stock chase or sale through the New York and when a large order is executed, shares of AT&T at 50 and an institutions make. Do these in Stock Exchange, then individuals like attitution get better prices then I get you and I who have orders in for the when I make a purchase or sale? Stock Exchange, then individuals like attitution corres along and sells it 6.00 and in the when I make a purchase or sale? Stock at the same time the same time the same price.

A Sometimes they do not'. It depends upon where the institution transacts its busice.

The reason for this is that the extended the institution transacts its busice.

The reason for this is that the extended the institution transacts its busice.

The reason for this is that the extended the institution transacts its busice.

The reason for this is that the extended the institution transacts its busice.

The reason for this is that the extended the institution transacts its busice.

The reason for this is that the extended the institution transacts its busice.

The reason for this is that the extended the extended the institution transacts its busice.

The reason for this is that the extended the extended the extended the institution transacts its orders and when a large order is recreated, shares of AT&T at 50 and an in-this time of the orders of individuals that stitution corress along and sells 18.00 and in the orders of individuals that along the recreated shares and to do so has to sell it at 60 and in the orders of individuals that it is extended to so has to sell it at 60 and in the orders of individuals that it is an extended to so has to sell the same or record at that time must be shares and to do so has to sell it at 60 and in the orders of individuals that it is an extended to so has to sell the same or record at that time must be shares and to do so has to sell the same or record at that time and the orders of individuals that it is an extended to so

The National Association of Investment Clubs feels it is vital that as a part of these changes the same price protection that an individual's order receives on the exchange be extended through the whole system. If you as an individual feel this way, you should make this known without delay to your sensors and representatives. Mostly they hear from institutions who would just as soon not let individuals benefit from such an arrangement.

NOTICE OF PUBLIC HEARING
