Interpretations

UPDATE (up-date)—transitive verb, to make new. As an adjective, the key to spring dressing. Spicing up last year's wardrobe with obi wrap belts, espadrilles, long silky scarves or square ones: retiring chunky jewelry for more delicate pieces, unbuttoning a past seasons blouse and putting it over a t-shirt: Topping it off with a cloche hat or pinning a silk flower on anything for a touch of spring '75.

Adding accessories to enhance a wardrobe and save money at the same time. Selecting neutral shades and working them into any color scheme.

Reviving spring '74's detailed blouse (the one with the tucks) and matching it with this year's big skirt.

Putting a 1975 big top with last year's pants—sans cuffs.

Pulling out (if you saved it) that old tent dress from years ago and cinching it at the waist with a wrapped belt.

Updating is sometimes the synonym for stretching. Giving more life to a new wardrobe by alternating belts and jewelry, adding a blouse under a shirt dress or interchanging tops with skirts and pants.

Using your imagination with little details that will be noticed.

THE SPRING FEATURE

Stylish patent leather is a must for Spring. The Orleans is perfectly styled with handsome topstitching, a fashionable patent strap and highlighted by a goldtone ornamentation. In your choice of black, brown, bone, blue or white patent leather.
