Summertime and the living can be easy. That is if common sense safety rules are followed, according to the Red Cross.

As a public service, the Red Cross and the Observer & Eccentric offer the following safety tips for those owning home pools and for those who will be swimming.

HOME SWIMMING POOLS are a lot of fun, but more than 300 drownings occur in them every year. With pool construction on the rapid rise, this figure threatens to go higher unless pool owners become more safety conscious.

To avoid accidents during the warm vacation days ahead:

1. Pool owners should insist that every adult using the pool should be able to swim. Children using the pool should learn to swim as soon as possible. Classes for swimmers at all levels of ability are offered by Red Cross throughout the year.

2. The pool should be enclosed by a fence and gate with lock to prevent unauthorized entry.

3. Never permit swimming alone and never leave a child alone near the pool for even a few seconds.

4. Make sure that at least one person on hand knows artificial respiration, rescue methods, and first aid. These lifesaving techniques are included in Red Cross swimming and water safety classes.

5. Prohibit use of television sets, record players and radios at poolside unless they are battery operated. Electric lighting by and in the pool should be installed only by a licensed electrician. Electrical service outlets should not be installed near a pool. A ground fault interrupter can be purchased to protect all electrical lines to pumping, filtering and lighting systems.

6. Use buoyed line to separate shallow and deep water.

7. Keep poolside area clear of bottles, glasses and other sharp objects.

8. Maintain clean, clear water. Consult local health department for pool sanitation rules.

9. Consult city or county attorney about your responsibilities for other persons' safety with respect to insurance and other protection.

10. Do not allow people to swim right after eating, when overheated or during electrical storms.

WHETHER YOU CHOOSE to vacation at one of Michigan's many lake-side resorts or to stay at home and enjoy your private pool, Red Cross urges you to learn to swim or improve your swimming abilities. You can do this by enrolling in Red Cross swimming and lifesaving courses offered during the year throughout the tri-county area.

In the meantime, it is suggested you follow these swimming safety tips:

1. Watch small children most carefully in and around the water. Even in supervised areas and even at shallow wading pools, mere seconds of inattention can be tragically fatal.

2. When swimming a long distance, have someone with you and stay close to the shore.

3. Swim in a safe place. The presence of lifeguards usually indicates the area is safe for swimming. Stay away from the area immediately in front of a diving board and do not swim near piers or pilings.

4. Before diving, make sure the water is deep enough and there are no submerged rocks or other hidden objects. In pools, look for depth markings before diving.

5. As a swimmer know your limitations and stay within them.

6. Wait at least an hour after eating before swimming. Do not swim when overheated or overtired.

7. Make certain that reaching poles, buoys and similar rescue gear are readily available at your swimming area. Don't depend on an inflated toy or inner tube to hold you up. It may slip from under you.

8. Whenever a thunderstorm threatens, get out of the water—it is a conductor of lightning.

why my Dad is a good sport

Hey Boys and Girls! We'd love to hear about the "Father You Know Best" and why you think he's a super good sport. Tell us in 50 words or less on the entry form below, then submit it to our Men's or Children's Departments by Saturday, June 7th. One entry

will be selected from each age category: 7 & 8, 9 & 10 years; and 11 & 12 years. The three winners plus their Dads will be "box seat" guests at the Detroit Tigers home game, Saturday, June 14th. (The Tigers want to meet these Super Dads before the game, too!) Our "good sport" judges are: Jimmy Launce of WJR Radio; Beverly Payne of WJBK-TV; Bob Talbert of the Detroit Free Press; and Dennis Wholey of WXYZ-TV. Winners will be notified by certified mail.

Jacobson's employees and their families are not eligible.

OCC to increase hourly tuition fee

The Oakland Community College Board of Trustees has voted to increase tuition \$1.50 per credit hour. The new tuition rate will still be below the average tuition for community colleges in the state.

Effective for the fall session, tuition will be \$11.50 per credit hour for residents, \$21.50 per credit hour for in-state nonresidents and \$31.50 per credit hour for out-of-state residents.

This represents the first increase in tuition voted by the board in its 10 years of existence other than the \$1 per credit hour increase mandated by the state in 1970. This increase was necessitated to partially offset anticipated loss in revenue from the state.

Based upon information provided by the sub-committee for community colleges of the Senate Appropriation Committee, the Bureau of the Budget and the Office of the Governor, a new formula for funding community colleges will be employed in connection with fiscal year 1975-76.

AMONG OTHER modifications, this new formula includes a major alteration in the deduction from the state's financial obligation to the college based upon the state equalized valuation of the district. The "deduct" associated with the formula employed for fiscal year 1974-75 was \$420 per full-year equated student.

For fiscal year 1975-76 the amount of this deduct will be \$480 per full-year equated student. The increase of \$60 in the deduct, in effect, will reduce the state's financial support of the district by approximately \$675,000.

According to Dr. W.H. Nikkel, vice-president for business and financial affairs, in addition to the decrease in state funds indicated by the State Equalized Valuation aspect of the formula, the deduction associated with the tuition component is to be increased by \$1 per credit hour. This action, in effect, reduces financial support for the district from the state by approximately \$300,000.

Under these circumstances, the college is forced to provide from sources of revenue other than that of the state approximately \$975,000 for the fiscal year 1975-76. It is in this context, and with the understanding that this income will only partially offset this deficit, that the increase in tuition of \$1.50 per credit hour is recommended.

AT THE SAME meeting, the board established a 50 cent per credit hour

debt service fee for the purpose of paying the principal and interest on the bonded indebtedness for construction of a student union building on the Auburn Hills and Highland Lakes campuses and the federal loan outstanding on the "J" Building on the Orchard Ridge Campus.

The assessment of a debt service fee replaces funds from student activity fees currently used for this purpose. The student activities fee was restructured to limit assessment of \$1 per credit hour to the first five credit hours during a given session. Previously, \$1 per credit hour was assessed on the first 10 credit hours of a student's program.

The separation of debt service fee and reduction in number of hours for which students will be assessed a student activity fee represents a reduced cost for many students.

The dinette that deserves a dining room.
New, and now \$389.

Once you see our striking new dinette, you'll be tempted to put it in your dining room. Stylishly contemporary, the set has natural cane-back chairs with deeply-padded brown vinyl seats. And, the 36" x 48" oval table comes with a 12" leaf, and birch laminated top. In stock, and originally priced at \$480, this set now saves you an amazing \$91. So drop by soon, and save. You deserve it.
