1975. The year of the Cub Cadet.

6 new Models for 1975, 8 to 16 h.p.

New quiet, because of sound-deadening isomounts and acoustically designed metal sheeting. New Maintenance Minder tells you when service is needed. The same lab-tested automotive-type transmission that withstood 15 years of normal use. Cutting heights adjustable on-the-go. 50 different attachments for hauling, seeding, dozing, clearing even snow removal. Choose from 3 hydrostatic drive models, or 3 gear drive models. All with easy-starting, fuel saving engines. Make 1975 your year for a Cub Cadet

Cadet Lawn Tractors
