## REASONS

- 9. COMFORT:**  
When driving a riding or a regular truck, it's just easier to enter and leave a wheel chair.
- 10. ECOLOGY:**  
Advanced technology means power windows and doors of less weight.
- 11. HANDLING:**  
Less weight for more drive.
- 12. SAFETY:**  
Major manufacturers are proud of their built-in safety belts.

# WHY BUY AN IMPORT

**HERE ARE  
15  
EXCELLENT REASONS**

- 1. CONVENIENCE:**  
You won't doubt it from all the Car and County ads for their cheaping competitors.
- 2. SELECTION:**  
The larger volume dealer has all models and models with over 2,000 new and used inventory items available.
- 3. SERVICE:**  
Fuel Consumption and Expert Service has been noted by owner.
- 4. PARTS:**  
Common and parts departments.
- 5. ECONOMY:**  
Saves money on fuel. Saves more than your insurance headwinds because of a lot of safety.
- 6. DURABILITY:**  
Imported cars last longer and hold value better than cars made during the past few years in the U.S.
- 7. RESALE VALUE:**  
Consistently a comparatively high return after you drive an import.
- 8. PRIDE IN OWNERSHIP:**  
Imported automobiles reflect pride long being noted for their attention to detail, bumper to bumper quality and cost.
- 9. COMFORT:**  
When driving or riding in an import you appreciate the attention given to comfort and ride as well as to the engine & other mechanical parts. And you appreciate the comfort you find the seats for hours of relaxed ease.
- 10. ECOLOGY:**  
Advanced technology makes possible the gas & much smaller engine doing what it takes today and going off fog effect!
- 11. HANDLING:**  
Careful attention to ease of drive, plus a lot of suspension refinement and support.
- 12. SAFETY:**  
Major manufacturers are pioneers in safety features built in a wheel brace and brakes, shock absorbers, metal roofs, roll-over bars and the corner of guard.
- 13. CHOICE OF OPTIONS:**  
Automobile manufacturers spend money on better ideas which result in producing an array of the finest products having less available on "every major car."
- 14. STYLE:**  
Imports are in vogue—because you're first competitor in styling this doesn't get lost!
- 15. ENGINEERING TECHNOLOGY:**  
Engineered mechanical systems for maximum performance, low friction losses and precise control under stress designed. These improvements in design and construction supplement an extra load of engineering know-how through available imports.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
