# Why there's a shortage of Miller High Life.

We're brewing more Miller High Life® Beer than ever. But Americans are also drinking more Miller High Life than ever. In each of the last two years, we've experienced greater sales percentage increases than any other major brewer in the industry. And this overwhelming demand has created shortages in some areas.

If you're having a problem finding enough of our beer, please accept our apologies. We're working around the clock to bring you an adequate supply as

quickly as possible.

We're even building another brewery, our fourth, which will be in operation early next year. There's only one thing we refuse to do. And that's rush our brewing process.

Because it's the quality of our beer that has made us a success in the first place.

America's quality beer. Since 1855.
