The Law of Automatic Promptier.
The six years of the first terms in these two senators expire. Suppose two senators of Washington retires a senator of Washington retires a senator of Washington retires a senator of the senator of t

Power of Caucus Chairman,
"As an Hustration, suppose the
west or the middle west were to adopt
New England's wisdom and thep their
secutors continuously at Washington
unit one of them became caucus
chairman.

Ha own people. If, like lows in the case of Allison, or Matur in the case of India dual Frye, or Rhode Island in the case of Malfied, a state keeps its senators continuously in office, the power land influence of that state in the senate increases almost by geometrical ratio.

senators continuous, a very senators continuous, and influence of that state in the senate increases almost by geometrical ratio.

A plausable Explanation.

Why, then, do not the other states follow New England's metiral. The people of other states are the squain in intelligence of the people of New England's Where, then, lies the mysters? Why do they shatter their own its following the public servates.

"May not this be one explanation? When new men are sent to the senate by changeable states, these men farrily reflect the advanced views of their people at the time of their election; when the senate is the senate of the senate is the senate of the sen
