

CUSTOM UPHOLSTERED FURNITURE

... with us it's a realistic alternative

Maybe you've been disillusioned about custom ordering furniture from what you've heard and read. About the long waits. About high costs. About all kinds of problems. We want you to know that's not the way it is when you custom order Norwalk furniture from Bainers.

GET EXACTLY WHAT YOU WANT

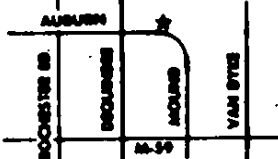

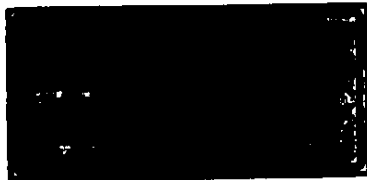

Why should you buy what some store happens to have in stock? Your tastes are individual. If you don't see exactly what you want, you should be allowed to order your choice of style and fabric. Custom ordering lets you.

30-DAY DELIVERY ... NOT THREE MONTHS.

Most stores discourage custom ordering because they know you'll have a long wait. At least six weeks. Maybe six months. Or more. Here's where we start to be different. Once your order is received at the factory, they'll have your custom pieces here for you in just 30 days.

IT'S EASY AND COSTS NO MORE

Choosing the exact style and fabric you want with the skilled help of our staff is a lot easier than walking around a warehouse or two. And best of all, our prices are competitive with the warehouse showrooms. Custom ordering comes at no additional charge. So consider how important this new upholstered purchase really is. Then step in where custom upholstery is a realistic alternative.

Leslie Masters' warm family room addition

(Continued from page 23)

left over from the last house's living room

A change of pace from American traditional can be created in the den by doing it in a contemporary way with modular seating, large graphics painted on a wall or with unusual lighting

Likewise, an ultra-contemporary house can have a more traditional feel in the smaller room. Fireplaces can add warmth also to this versatile room.

Margie Cockle of Mondello Interiors created an old world warmth in a special room for one of her clients. Done in port wine and toasted almond colors, the

room reflects the versatility needed for this family.

One part of the room is for television viewing, another has a banquette to help create a bistro feeling in a small dining area. Another is strictly for reading and conversation.

Because the room is subterranean, we chose warm colors to brighten it. The room works well for the client because everyone in the family can be served by it.

'We retained the family feeling by using many pieces of furniture which the client already had,' Ms Cockle said.
