Again the Navy is hoping that enough to allow a doomsday mathe citizens of Michigan will be, chine to be installed in our soil.

It was a year and a half ago that in a giant underground cable and tenns. The plan called "Fojet Sanguine" was rejected.

The Navy decided it wanted to wire infrant than what this will do to the moral and spiritual condition of the people of our state.

Now the plan returns with a new name. Project Seafarer, and a reduced area of merely 2,500 square miles of wire for Michigan's Upper Peninsula.

It is a doomaday machine because it is planned as the last surviving one-way communications system in a total war. It would be used only after all other methods of communication had been destroyed by atomic attack.

stroyed by atomic attack.

The antenna could only transmit a one-way message to U.S. Polaris aubmarines stationed deep within the ocean to launch the final retaliatory attack against the Soviet Union. The underground antenna could not receive messages of confirmation or questions concerning this final doomsday attack.

Do we want our state to be host to the horrible insanity of a wasted earth policy of retaliation?

help. If we become hosts to this Pentagon plan, we can add to this Psalm. For under the hills and forests lies the most amazing in-strument of death."

THE TRUE moral issue in this plan was not raised in a recent daily newspaper editorial. The ecological damage of building the artenna across 2,500 square miles of the Upper Peninsula is less sig-tons? I believe not future generations?
